

DEFEAT OF SECOND LOAN ATTEMPTED BY PRO-GERMANS

Organized Propaganda is Reported to Have Discouraged Subscriptions Over Country

Agents Have Attempted to Discourage Prospective Buyers, Prevent Certain Banks from Handling Bonds and Prevent Placing of Posters and Advertising Literature.

WASHINGTON, Oct. 17.—Pro-German agents in the United States, according to reports to the treasury department, have directed their energies toward defeating the liberty loan. They have organized propaganda has borne fruit, from Minnesota, Texas, it is asserted, in scattered localities where weak efforts have been made, not openly, but in indirect methods, to discourage subscriptions.

The work of the pro-German agents, officials assert has been carried on for more than two weeks. Some of the workers have had the temerity, reports to the treasury indicate, to conduct their operations here in the national capital.

Official recognition of the propaganda against the loan was voiced today by Col. Herbert M. Lord, representing the war department at the war risk insurance conference at which the details of the new soldiers and sailors insurance law are being explained to officers and enlisted men from the various cantonments.

"There has been an organized effort," said Colonel Lord, who was chairman of today's meeting, "to discourage and defeat the loan."

This effort, he added, has been made by seeking to misrepresent the patriotism of the new national army. An official account of the proceedings of the conference, which was behind closed doors issued to-night by the treasury department reads as follows:

"In conveying refutation of the slander, which was to the effect that the men of the new national army opposed the war, Colonel Lord announced that subscriptions from the army for the loan already aggregated \$26,000,000 and that some of the subscriptions were written in foreign languages. The announcement caused great enthusiasm among the delegates from the army and navy, marine corps and coast guard (attending the conference) 500 of whom swarmed up to the platform following the address and signed war insurance applications, all of which, except forty, were for the maximum of \$10,000.00.

Work Along Four Lines
Assemblies from various sources the efforts of workers against the loan appear to have been directed along four main channels.

Attempts to discourage prospective buyers of liberty bonds.
Efforts to prevent certain banks from handling the bonds. The publication in certain newspapers and other mediums of publicity of editorials and articles which, while not directly opposing loan subscriptions tend to discourage buyers.

The prevention, so far as local and sporadic efforts, of the placing of liberty loan posters and advertising literature where it will be most beneficial.

Instances have been brought to the attention of the officials where buyers have been approached apparently in a spirit of great friendship and advised not to buy the bonds.

Efforts to prevent banks from handling the bonds have centered chiefly in Wisconsin, Minnesota, North and South Dakota, Montana, Missouri and Oklahoma. The president of a Wisconsin bank had advised the treasury that his depositors, mostly Germans or of German parentage have withdrawn many thousands of dollars from his bank because he aided the first liberty loan.

Many banks have felt the pressure of German influence in this propaganda, reports indicate. So pronounced was the movement that the states of Minnesota, North and South Dakota and Oklahoma recently decided they would withdraw state funds from any bank which did not support the loan.

In Missouri and Oklahoma, the pro-German element is said to have placed strong pressure on bank directors and officers to induce them to refrain from participating in the flotation of the second loan. This movement however, proved to be a boomerang it is said. The banks turned a deaf ear to these representations and subscriptions are now reported to be increasing heavily in that section. A check is kept by the treasury on all newspaper editorials and articles referring to the loan, not only in publications printed in English but in the foreign language press. A number of such publications it is asserted have been industriously printing editorials and articles of a tone studied to produce impressions unfavorable to the loan.

The fourth phase of opposition attempts to prevent the posting of liberty loan posters and placards in advantageous places—has been carried on in many places, notably in Washington. Efforts to secure permission to hang placards in the windows of empty shops here have in many instances met with refusal. In other instances, posters have been torn down. In nearly every case in-

COMFORTING ARTICLE FOR HOME CONSUMPTION

German Officer Reassures People U. S. Can Be Safely Ignored

Bremen Newspaper Article Sets Forth Effect of America's Entrance on War—Asserts Germany Will Have an Easy Task.

Amsterdam, Oct. 17.—The Weser Zeitung (Bremen) publishes an article by Major Hoffer of the German general staff on the effect the entrance of the United States will have on the war.

After reviewing the difficulties of the United States in training and transporting troops to Europe, he declares that the American military possibilities may safely be ignored by Germany.

"Before the declaration of war," he says, "the military resources of the United States consisted of an insufficiently trained regular army of only 100,000 and a national guard of 120,000, hardly trained at all. The vicious measures taken to increase the army will result in the formation by spring of an army of about 1,400,000 which has only received minimum training.

"No considerable part of this army can reach Europe before summer while, in any case a large number must be retained at home; so that not more than 400,000 or 500,000 men can be sent to Europe. The transport difficulties will be enormous. Two and a half million tons of shipping will be necessary to transport and supply sixteen divisions and the total American shipping even allowing for confiscated ships and new construction will by spring be only 4,000,000 of which the navy requires 2,500,000.

"Any extensive transport of American troops would cause serious difficulties in supplies to England and France. It must also be remembered that the U-boats are sinking more and more ships daily.

"Finally the fighting value of the American troops is not great probably about equal to that of the Roumanians and there certainly will be fewer of them than of Roumanians. So Germany will have an easy task. In fact it is doubtful whether the Americans will risk the venture of sending an army to Europe at all.

"The only American help to be seriously reckoned with is in the air. The U.S. can quickly train and easily transport, but the German command has taken all necessary measures to meet this danger. The new enemy directs his efforts less against the German army than against the nerves of the German people and against the internal unity of Germany."

FIND MANY ACTIVE TUBERCULOSIS CASES

More Than 50,000 Active Cases Are Found in French Army—Disease Spreading Among German Forces.

Baltimore, Md., Oct. 17.—That two per cent of the men between the ages of 21 and 30 called for draft examinations have been found active tuberculosis cases was stated today by Dr. Louis I. Dublin, of New York, before the North Atlantic Tuberculosis conference. The national campaign to eliminate tuberculosis was described as the "greatest single event in the history of the tuberculosis movement in the United States."

Dr. Dublin declared that 500,000 active cases had been found in the French army alone. He said no figures were available from Germany but that reports were that the disease had spread alarmingly there in the last three years.

George L. Nelbach of New York, advocated government treatment under military discipline of soldiers who have contracted the disease.

Dr. Lawrence F. Flick, of Philadelphia, declared that English soldiers had not suffered the ravages of the French because, he said, where England had carefully selected her soldiers, France had limited her investigations to children and sent men afflicted with tuberculosis to the trenches. The action of a number of draft boards in accepting men in incipient stages of the disease was criticised by a number of the speakers.

U. S. GOVERNMENT TO BUILD BARGES

Designed for Navigation on Upper Mississippi River.

St. Louis, Oct. 17.—A fleet of 24 barges to be towed by four steamboats, designed for navigation on the low water stretches of the upper Mississippi river, is to be built by the United States government according to an announcement made yesterday in Washington by Edward F. Goltra of St. Louis.

Goltra has been in Washington for ten days in conference with government officials regarding the proposed fleet. The fleet will cost \$3,335,000 and it is expected it will be in operation by next April.

The fleet is to be leased to private parties during the war and after hostilities are ended those who have the barges under lease will have the privilege of purchasing them from the government.

DEATH ACCIDENTAL
Chicago, Oct. 17.—A coroner's jury late today decided that the death of Miss Susie Kapps from gas poisoning was accidental. Miss Kapps and Charles Herr of Quincy, Ill., were to have wedded Oct. 27 and Miss Kapps, her friends say, was very happy.

Telegraph Notes

Peoria, Ill., Oct. 17.—Resolutions favoring the commencement of a propaganda having as its object the repeal of the law prohibiting the use of Bibles in the public schools was unanimously passed amid cheering at the annual session of the Presbyterian synod of Illinois today.

Springfield, Ill., Oct. 17.—At a hearing today before the railroad committee of the Illinois State Board of Equalization A. E. Tarbet of Chicago, tax commissioner of the Illinois Central railroad said that the Illinois Central now owned all the stock of the St. Louis, Belleville & Southern.

St. Joseph, Mo., Oct. 17.—William Ridley of What Cheer, Ia., won the big event of the Western Open Shooting tournament which closed here today, breaking 146 of 150 targets. D. D. Gross of Kansas City, a professional, led all shooters with 148 out of 150 but he was not eligible for the event.

Washington, Oct. 17.—Messages of felicitation on the union of the United States and the new Russian democracy in the cause of justice exchanged by President Wilson and Madame Catherine Breskovskaya, chairman of the Russian committee on civil education were made public today at the state department.

Chicago, Oct. 17.—Eleven million dollars worth of liberty bonds were subscribed today it was announced tonight by the committee in charge of the campaign and reports from other points in the seventh federal reserve district were equally encouraging. Among the big subscriptions \$1,500,000 by the Pullman company and \$1,000,000 each by the Union Trust company, the Illinois Central railroad company and the Lee-Higginson company.

YAKU INDIANS HAVE TAKEN THE WAR PATH

Heavy Fighting Reported Between Indians and Government Troops Along Yaqui River.

Tucson, Ariz., Oct. 17.—Mrs. Julian Johnson wife of a mining man of Tucson today received a letter from her sister in Hermosillo saying hundreds of Yaqui Indians had taken the war path at Bicom, on the Yaqui river after ordering all Mexican families out of town. Fighting has now been in progress five days the letter said. The state government has been assembling soldiers for some time for a campaign along the Yaqui river. Two weeks three carloads of ammunition to be used in the campaign blew up at Torres. An officer dropped some ash from a cigarette near the cars setting off a grenade which set off the entire cargo.

The Yaquis learning that a campaign was contemplated decided to take the offensive. The government rushed all available troops at its command. Heavy fighting between the Indians and government troops resulted.

Situation Becoming Grave.
El Paso, Oct. 17.—Advices received here from Sonora, Mexico, today are to the effect that the situation in the Yaqui river country in that state is grave. Some 1,500 Indians are on the war path and ranchmen and settlers including a number of Americans, have fled to Hermosillo. The trouble according to the meager reports received here, resulted from an attempt of local authorities to confiscate lands given to the Yaquis by the government when the Indians agreed to lay down their arms last year.

HIGH TIDE OF COAL STRIKE TO BE REACHED

Officials Expect Many More Mines Will Be Shut Down Before Controversy is Settled.

Springfield, Ill., Oct. 17.—With one-third of the big shipping mines in Illinois idle and several hundred smaller shafts and "gopher holes" closed the high tide of the coal miners' strike to force immediate increases in wages, operators believed, had not been reached tonight.

All miners' officials were at Joliet attending the federation of labor convention and it was expected here that many more mines would be shut down tomorrow despite the warning of Dr. Garfield, the fuel administrator, that he would "use whatever powers are necessary to compel production of coal to meet the country's needs."

Manufacturing concerns and private individuals appealed to Governor Lowden today to bring about relief of coal shortages in various parts of the state but the governor referred the parties to the federal authorities who have the full control of the coal situation.

Warm weather, it was said, fortunately intervened to prevent suffering among persons whose coal bins are low, but factories and plants using large quantities of fuel are said to be faced with shutdowns unless relief is forthcoming.

PLEDGE COOPERATION WITH ADMINISTRATION

WASHINGTON, Oct. 17.—Representatives of the National Retail Grocers' association, the Independent Retail Grocers' and the Chain Grocers' association, meeting here today pledged themselves to co-operate with the Administration in every way possible to assure the enforcement of its rules and regulations and to deliver to the consumers the necessities of life as cheaply as lies within our power to do so.

U. S. WARSHIP TORPEDOED BY ENEMY U-BOAT

Gunnery Mate Ingram Killed and Five Other Men are Wounded

Vice-Admiral Sims Cables Few Details—Submarine Supposed to Have Escaped After Launching Torpedo—Is First American Warship Hit.

WASHINGTON, Oct. 17.—An American destroyer on patrol duty in the war zone was torpedoed by an enemy submarine yesterday. Gunnery Mate O. K. Ingram was killed and five men wounded. The destroyer made port in spite of severe damage.

Vice-Admiral Sims cabled few details, but it is assumed there was no fight and that the U-boat escaped after launching a torpedo.

None of the wounded were seriously hurt. They are Herman H. Pankratz, gunner's mate, St. Louis; William E. Merritt, seaman, New York City; Frank W. Kruse, fireman, Toledo; Patrick Rutledge, officer, New York City and William S. Seimer, fireman, Dundas, Minn.

First U. S. Warship Hit.
This is the first time an American warship has been hit by the enemy since the war began. Destroyers conveying troops and merchantmen have engaged submarines and are believed to have accounted for some of them, and the ships patrolling the European shipping lanes undoubtedly have had many an encounter of which nothing has been heard but until yesterday none had been touched by a hostile shot.

Naval gun crews on armed merchantmen have not been so fortunate. Many of them have had to abandon their charges and take to the boats usually after an unwarned torpedo attack and one officer and thirteen men have lost their lives, while four men are now in German prison camps.

In all the navy has lost one officer and 16 men—the only men of America's fighting force actually killed in action.

Lieutenant Clarence C. Thomas, commanding the gun crew of the tank steamer Vacuum, and four of his men were the first of the navy's casualty list. In addition to the men lost on merchantmen and gunner's mate Ingram, two naval fliers have lost their lives at the French front.

Naval officers do not doubt that the torpedoed destroyer was taken unawares by the submarine and had no chance to bring her guns into play. They think it probable that the U-boat, cruising in search of merchant victims, stumbled upon the patrolling destroyer and was fortunate enough to get into position to launch a torpedo and dive to safety without ever showing more than her periscope.

It is believed, too, that the destroyer must have been steaming slowly over her beat, for at top speed these craft present an almost unhittable target to the submarine.

TWO ARRESTS MADE AT KANSAS CITY

Former Employee of Yards Taken by Detectives After Stock Yards Fire.

Kansas City, Mo., Oct. 17.—Two arrests were made today by detectives and government agents following out the intimations that the \$750,000 fire which partially destroyed the Kansas City stock yards yesterday morning was incendiary. A former employee of the yards was arrested by detectives in this city and a second man was arrested by government agents in Oklahoma City.

The suspect arrested here is said to have revealed the names of two other persons believed to be implicated in yesterday's fire. The livestock loss by the fire was 7,500 cattle and 3,200 hogs.

The carcasses have been sold to a fertilizer factory.

OFFICERS RECOVER STOLEN MONEY

Newark, O., Oct. 17.—All but the unvanville bank at Granville, a village near here by holdup men was recovered this afternoon with the capture of two men in soldiers uniforms by C. O. Burke, a former Newark policeman. The robbers wore civilian attire when they entered the bank and forced cashier Pierce and his stenographer in the vault at pistol point. A sheriff's posse overtook the two men walking along a country road several hours after the robbery.

NEGROES TO MAKE UP NEXT CONTINGENT

CHICAGO, Oct. 17.—Negroes exclusively will make up the next contingent for the National Army to leave Chicago, it was announced today following the receipt of a communication from the adjutant general's office. The movement will start October 27 and there probably will be no white men sent to Camp Grant until some time in November.

FOR INCORPORATION PAPERS

Springfield, Ill., Oct. 17.—An application for incorporation papers was filed today by the Dixon Roller & Rink company of Dixon. Capital stock \$500.

War News Summarized

Altho American torpedo boat destroyers have covered nearly a million miles since the United States entered the war, crossing the ocean, conveying vessels and chasing submarines, only recently has a German submarine succeeded in damaging one of them with a torpedo.

The attack occurred somewhere within the war zone last Tuesday, but the destroyer was badly damaged, she was able to make port. One man, a gunner's mate was killed, being blown into the sea by the force of the explosion of the torpedo. Five other men were wounded.

The Germans are entirely in possession of the island of Oesel, at the head of the Gulf of Riga and the Russian forces still there are cut off from communication with Petrograd. Small naval engagements continue in adjacent waters and German aircraft are carrying out reconnaissances over the islands in the Gulf of Riga and over the mainland to the east. Pernau, an important gulf port north of Riga and due east of Oesel Island has been bombarded by German naval airships.

The Berlin war office announces that large quantities of booty were captured on Oesel and that more than 1,100 prisoners were taken by Germans Wednesday.

On the mainland to the south of Riga there has been considerable activity on the part of the Germans who at one point endeavored to throw pontoon bridges over the Dyva river.

The Russian artillery however, prevented the bridging of the stream.

A report, which if true, probably indicates that the Germans are preparing for a big naval demonstration against the Russians from the Baltic Sea. It says a large number of German war craft were observed on Monday and Tuesday and that the belief prevails that they were reinforcements for the German Baltic fleet.

The expected renewal of the great offensive by the British and French troops in Belgium has not eventuated. Heavy bombardments and reconnoitering encounters still prevail. There have been only bombardments on the southern front in France and from the Isonzo front to the sea the Austrians and Italians are heavily shelling each other.

There has been a noticeable return of bombing operations by the British airmen in Belgium and across the line in Germany and by the Germans against French positions. British aviators have dropped tons of bombs on Bruges and also have loosed explosives on a factory near Saarbrücken, Germany, while the Germans have bombed Nancy and Dunkirk, at the former place killing ten persons and wounding forty.

German submarines or mines last week were responsible for the sinking of eighteen British merchantmen as compared with sixteen the previous week.

COAL STRIKE COULD PARALYZE BUSINESS

CHICAGO, Oct. 17.—Unless the coal strike is settled within ten days business in Chicago will be paralyzed according to a statement made today by Fred W. Upham, president of the largest coal company in the city. "There is less than ten days supply in the city and no coal coming in," said Mr. Upham.

RECEIVES PERSONAL LETTER FROM WILSON

NEW YORK, Oct. 17.—Vincent Kelly, a Jersey City yardmaster, whose five sons enlisted in the army and navy, has received a personal letter from President Wilson in which the president said: "I warmly congratulate you on the fine spirit you and they have exhibited. Cordially and sincerely yours, "Woodrow Wilson."

ZIONISTS OBJECT TO INOCULATION

CHICAGO, Oct. 17.—When Zion City's quota of nine men went to the army armament at Rockford they discovered that vaccination against smallpox and typhoid was prescribed, a practice not countenanced by their religion. They appealed to Overseer Wilbur Glenn Voliva and he in turn entered a protest with President Wilson, so he declared today.

No word has been received from Washington and, Overseer Voliva says the nine Zionists soldiers will not be inoculated "even if they have to go to prison or be shot."

GRAND JURY INDICTS FIVE FOR PRICE FIXING

Chicago, Oct. 17.—Five persons identified with the milk industry were reported to have been indicted today at the close of grand jury investigation into charges of price fixing. It was said true bills would be returned in court tomorrow, embracing counts of conspiracy in restraint of trade and fixing of milk prices in violation of the law.

AMERICAN MEDICAL OFFICER WOUNDED

Washington, Oct. 17.—First Lieutenant A. Graham, medical officers' reserve corps, attached to the British forces has been severely wounded in the thigh by gunshot. General Pershing so advised the war department today without giving details. Lieutenant Graham's next of kin is Mrs. William J. Graham, Paterson, N. J.

NEGRESS TESTIFIES AGAINST WHITE MEN

Identifies Man Who Shot Her Husband

Three White Men Now On Trial for Murder in Connection with Riots at East St. Louis Last Summer.

Belleville, Ill., Oct. 17.—A negress testifying today in the trial of three white men—Harry Robinson, shoemaker; John Dow, wagon maker, and Charles Hanna, chauffeur—on a charge of murder in connection with race riots at East St. Louis last summer, said she saw Hanna kill her husband and that Dow dragged away her 14 year old son who was killed also.

Harry Robinson was identified by Max Sponsinsky as the leader of a band that entered Sponsinsky's pawnshop and took three dozen revolvers and a quantity of ammunition.

The three white men are being tried for the murder of William Keyser, a white merchant who was killed by a stray bullet while he was standing in front of his store watching the rioting. The testimony as to the attack on the negroes was introduced as part of the attempt of the state to establish that the defendants took part in the actions of the mob and therefore were guilty of its crimes, including the killing of Keyser.

The defendants also are charged with the murder of the two negroes, but they are not now being tried on that charge. Mrs. Lena Cook, a negress, testified that she, her husband, her fourteen year old son and her thirteen year old daughter were passing thru East St. Louis on a trolley car from Alton to St. Louis, Mo.

A mob surrounded the car in East St. Louis, she said.

"Hanna," she said, "took my husband by the collar and pulled him to the back platform, threw him off and told me, 'I said, 'don't kill my boy, but Dow jerked my boy away and that was the last time I saw my son alive.'"

BOMB PROOF SHELTERS BEING CARD INDEXED

English Anticipate Recurrence of German Air Raids as Soon as the Moon is Up Again

London, Oct. 17.—London's bomb proof shelters are being card-indexed in preparation for further German raids. Sufficient tunnels, arches, basements and substantial buildings have been inventoried to accommodate one million persons. In making this announcement today, Sir George C. Hill, home secretary, declared an advisory board of prominent surveyors will be appointed soon to make a canvass of bomb proof shelters in greater London. He said the government had decided to make it a regulation under the defense of the realm act to require every one possessing a bomb proof shelter to place it at the disposal of the public.

The decision of the educational authorities to close all the London schools during the last week in October is perhaps the most interesting of the many steps being taken in anticipation of the recurrence of German raids as soon as the moon is up again. Air raid shelter placards are being distributed thru the Metropolitan area.

Many substantial forms of relief for air raid victims and their relatives was announced as a result of a conference of the mayors of the various London boroughs.

RECORD IN AERONAUTICS BY HYDROAIRPLANE

NEW YORK, Oct. 17.—A record in aeronautics whereby a hydro-airplane "looped the loop" for the first time was claimed today by Lawrence Sperry and Thomas Dixon, Jr., members of the naval reserve corps. The dangerous feat was performed a mile in the air above Mastic, Long Island, yesterday.

The flying boat, steered by Sperry, was driven to a height of nearly 6,000 feet above the ocean. Then a quick shift caused the machine to turn over and it skimmed thru the air for nearly a quarter of a mile, bottom side up. After ten seconds the machine was righted and Sperry explained easily to the water.

MEMBER PARLIAMENT TO REVIEW PAGEANT

LINCOLN, Ill., Oct. 17.—The first "Love thy neighbor as thyself" parade in the United States, when 10 bands and 10,000 persons are expected to be in line, will be reviewed here tomorrow by Sir Richard Hazell, Irish member of the British parliament, Adjutant General Frank S. Dickson of Illinois and Henry Rathbone, president of the Hamilton club.

The pageant and ceremonies to follow are patriotic, and the occasion will be used to boost the liberty loan.

TROOPS EMPLOYED TO QUELL RIOTING

A Gulf Port, Oct. 17.—Troops were employed to quell rioting of striking dock workers at several ports in Honduras, recently and in a fight between strikers and soldiers at Lacerba a number on both sides were killed and wounded according to passengers arriving here today on a steamer from the Central American republic. The passengers also brought unconfirmed reports that six Americans had been killed by natives near Cuero.

DATES FOR SKI TOURNAMENT

Chicago, Oct. 17.—Dates for the national ski tournament were set today for January 26 and 27 at Cary,

WILL TOLERATE NO INTERFERENCE IN FUEL PRODUCTION

Federal Government Will Use Necessary Power to Check Coal Miners' Strikes

President Wilson Has Been Empowered By Congress to Take Over Mines and Operate Them, if He Deems it Advisable.

WASHINGTON, Oct. 17.—Whatever powers necessary will be employed by the federal government to stop the strikes of coal miners in the middle west and prevent interruption of the nation's fuel production.

This warning was given today by Fuel Administrator Garfield in a sharp telegram to miners and operators in the fields involved reminding them of their pledge not to allow the output of coal to be diminished and declaring that any attempts to bring pressure to bear upon him to force a revision of coal prices would result in postponement of a decision on that question. Dr. Garfield was in conference today with John P. White, president of the United Mine workers of America who reported that so far the strikes in Ohio, Indiana, Illinois and Pennsylvania were local, tho they were threatening to spread. He expressed hope the men could be induced to return to work.

The fuel administrator did not comment on his warning or go into detail about the steps he proposes to take further than to say that while the country is at war no interference with fuel production is to be tolerated.

Congress has empowered the president to take over the mines and operate them, if he deems it necessary.

Six Indiana Mines Idle

Mr. White reported that a considerable number of men were out in Springfield and Peoria districts, in Franklin and Williamson counties and in the Belleville coal district of Illinois. In Indiana, he said, six mines were idle because the men demand wage increases and in the Bergholz district of Ohio, several mines have shut down.

Under the recent agreement reached at a conference here between the operators and men a new wage scale granting substantial increases was agreed upon. The operators first entered into the agreement conditional upon an advance in prices being allowed by the government. The fuel administration refused to consent to such an arrangement and the operators, according to the administration finally agreed without that stipulation. The question of allowing an increase in price for coal produced is in the hands of a committee of the administration.

Fuel administration officials say the men now striking want increased wages to take effect immediately. In a statement tonight Dr. Garfield said the fuel administration and the railroads are working to get more cars to the mines and that there is every hope the coal shortage will be remedied. He said whether the increased demand for coal will be met by increase of supply will depend on car supply, energy and patriotism of miners, coal operators and laborers and loyal recognition by every citizen that he is responsible for conservation and limitation in use of coal.

"Our production," he said, "has shown a steady increase over last year's figures so that the total of bituminous coal mined in 1917 will be about 50,000,000 tons greater than in 1916 and increased production of Anthracite coal will show an even higher percentage."

TRACTION SYSTEM SEEKS RATE CHANGE

SPRINGFIELD, Ill., Oct. 17.—A hearing on the petition of the Illinois Traction System and subsidiary electric roads for permission to abandon its zone system of fixing passenger rates and to establish a mileage system is set for Friday, October 26, the state public utilities commission announced today.

WRITES CARRIE CATT

New York, Oct. 17.—President Wilson in a letter to Mrs. Carrie Chapman Catt, president of the National Woman Suffrage Association, made public here tonight expressed the hope that voters would not be influenced by the actions of the so-called pickets in Washington.

WEATHER INDICATIONS AND TEMPERATURES

Illinois: Rain with mild temperature Thursday; much colder Thursday night; Friday cloudy and much colder; probably snow flurries North and Central portions.

The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper and also the local news published herein.

The passing of the Fifth regiment was marked by solemn scenes, but our boys will do their full duty wherever they are placed.

An "American Student House" is soon to be erected on the Champ de Mars, Paris, to honor students among American troops.

Morgan county certainly needs a member in our state legislature, but there is little chance of her getting one so long as she is tied up with Sangamon county.

Liberal contributions are being made by employees of the C. B. & Q. to a fund to provide Christmas remembrances to every former employee of that road now in the service of his country. A commendable work.

It appears that, having suffered so much tyranny and oppression, and for so long, and having overthrown

the autocracy that imposed these conditions, the Russians are liberty mad. They are something like the Irishman in the old saying, "give him a tree horse and he'll ride him to death," says the E. St. Louis Journal.

The canning factory at Eureka has made a record this year, closing recently with a pack of 3,500,000 cans of corn—the next story, however, is apt to be that a scarcity of corn has made necessary an increase in the cost of canned goods, the pumpkin season has not yet commenced.

The United States will hold a dominant position in the money market of the world after the war, in the opinion of members of the special Japanese Finance Commission which will visit the United States soon, to investigate the financial and economic measures adopted to meet the exigencies of the war.

Liberty day is due to be here October 24th. That is the day the president has set for the new dedication to American freedom and privilege. On that day it will become evident how many Americans are willing to do something for the government under which they live.

ALL AMERICANS.
A "perfect democracy" is the term frequently applied to the camps of U. S. soldiers now established in many parts of the country. There are men of all classes and creeds and nationalities—even men of German origin or descent, men loyal and true to the tenets of Democratic government. A citizen of Jacksonville has handed us a paragraph from a letter received from his son "I went over to Camp Funston Thursday afternoon and dined with Capt. W. and his messmates and found it a very interesting experience. One of Ed's fellow captains is worth eight million dollars and

one of the second lieutenants was on the Harvard football team and was all-American tackle."

SOMEBODY BUYS IT BACK.

A single transaction recently cited in Nebraska, not as an exceptional one in any sense, but as taking place in the usual course of trade as now organized, indicates that there is work ahead for the food administrator. It also may explain why consumers in the United States are paying twice as much for bread as they pay in normal times. It is said that a farmer recently sold a carload of wheat at the prevailing market price in Nebraska, receiving for it \$653.01, and that is he had sought to buy back, at present prices, the flour, shorts and bran which the wheat produced, he would have been asked to pay \$2,107.03, says the Christian Science Monitor. The difference, a mere matter of \$1,454.02, according to this narrative, represents the profits which the consumer pays, for somebody does "buy it back."

SOLDIERS ENTITLED TO THE BALLOT.

Adjutant General Frank S. Dickson is confronted with a difficult task in order to comply with the provisions of the military bill, passed by the last session of the Illinois general assembly.

The bill provides that every Illinois man who is serving in the army shall be entitled to vote for all state officers and for all statewide propositions. However, the provisions of the law will not become effective until November, 1918.

The law provides that the adjutant general of the state shall furnish the secretary of state with a register containing the names and addresses of all qualified electors enlisted in companies or regiments organized in this state and absent from their election precincts because engaged in the actual military service of the United States. Official war ballots must then be issued by the secretary of state, which shall be forwarded to the commanding officer of the commands, who shall plan for the election. The elections in army camps shall be held not less than five or more than twenty days prior to the general election day. Election judges and clerks are to be chosen by the enlisted men and, after the ballots are marked, they shall be placed in envelopes, and returned to the secretary of state, who will forward them to the county clerks of the counties in which the soldiers reside.

Under the provisions of the new state law, soldiers of Illinois will be given an opportunity to vote for state officers in 1918, and in addition may ballot for the \$60,000,000 hard road proposition, and also for the constitutional convention proposition, which will be on the ballot next year.

"TONE DOWN" PATRIOTISM.

Rev. David Thomas, pastor of the First Congregational church of Sheboygan, has resigned, "because he would not quit preaching pro-Americanism without any reservation." Sheboygan has been a hotbed of German sentiment since long before the United States entered the war. The city received much advertising as the result of an official vote taken last spring on the direct issue of loyalty to our country. The election, so many patriots have said, was disguised under the color of a test of the city's desire for peace or war. The vote expressed a large majority for peace.

Rev. Mr. Thomas, a fighter and a patriot as well as a preacher, and minister of unusual ability, began to talk plainly to the people of his church and of on patriotic subjects. He was pro-American in everything pertaining directly and indirectly to the war. He was also pro-ally and intensely anti-German. He went out of his way, so we are informed, to preach Americanism and to oppose the ruthlessness and frightfulness of Germany.

Then the pro-German element in Sheboygan began to work. Thomas was asked to "tone down" his patriotism. Members of his own congregation gave him the cold shoulder. He was snubbed by certain commercial associations which, apparently, did not want to have any "trouble" in Sheboygan. Business institutions which were controlled by pro-Germans got in some dark work. Thomas spoke to decreasing audiences. The finances of his church did not work out as they had during other times.

But the preacher did not "tone down" his patriotism.

He spoke with the same fearless force. He saw no reason why pro-Americanism should be hushed even in a city where German influences were apparently so strong. He saw no reason why pro-Germans should compel him to adopt a preaching course which was not in harmony with patriotism and Americanism.

And here is a part of the resignation which Rev. Mr. Thomas read to his congregation yesterday:

"I would choose a church with its doors nailed rather than a church with its pulpit closed to the free discussion of the great war, whose outcome involves our independence and the safety of democracy throughout the world.

"To the suggestion that I tone my patriotic utterances to meet the popular local situation my answer has been, and now is, I will not, I cannot."

There is no such thing as "toned down" patriotism in these days. When a man begins to tone down his patriotism he discovers that he didn't have any patriotism, says the Peoria Transcript. Patriotism isn't patriotism when it can be toned down. A soldier discarding his gun; a sailor forsaking his ship while the vessel is still in good order; a government making cartridges for the soldiers and leaving the business end of the cartridges off—that would be the same as a patriot being hushed during times when he ought to talk for his country and against the enemy!

CONSERVING FISH.

Illinois has a fish and game commission that knows something about fish and game, and it is hoped there will be some efficiency in the department. In the past, game and fish commissioners have usually known much more about politics than they did about game and fish, and their principal duties seemed to have been to draw their salaries and to take part in game suppers at the state game farm.

But now comes Clarence E. Snively of Canton, Illinois, a man who has hunted and fished for half a century, and a true sportsman. Mr. Snively believes that conserving fish is a more satisfactory work than hatching fish. He points out that all the fish hatcheries in the country could not produce as many fish of the same size as are to be found in sloughs and lakes and ponds and like places which go dry or nearly dry, and from which the fish must be rescued or lost. The hatchery at Havana is closed, or will be closed. The hatchery near Chicago will probably be maintained, but the department announces through Mr. Snively that rescue work will largely take the place of the hatchery work.

In these days of stress in matters of food for the people, the public is realizing more and more that the great waste of fish through neglect and through abuse of fishing privileges must be stopped. Food conservationists are preaching from the house-tops that fish are the best food, and the cheapest food in the way of meat. No one disputes it. The fact stands by itself, yet in the great central valley more fish go to waste every year than are used in ten years.

Of men interested in fish and their successful propagation, there are two classes, namely the sportsman and the professional fisherman who fishes to sell his products to the public. The sale of some fish, particularly game fish, is prohibited in order that the sportsman may have his pleasure. The propagation of coarse fish is done for the benefit of the professional fisherman more than any one else, for the state realizes that the fish industry ought to be encouraged and in the last year has appropriated more than \$300,000 for that purpose.

It is the intention of the present administration to enforce all game and fish laws, and Snively says that little trouble is experienced with the sportsman but that fishermen frequently do not do what they ought. They, he says, do not realize what is to their benefit, and as an illustration told of an incident that happened on the Illinois river when he sought fishermen to help him rescue small fish. He wanted to hire them to help him and they asked \$20 a day. Surely when the fish matured they would profit more than any other class.

He mentioned a drag that had been made over in Meredosia bay where 100,000 pounds of fish were

obtained, and the men were only prepared to take care of 20,000 pounds. The result was that instead of leaving the 80,000 pounds of fish loose, they tried to keep them, which was impossible and about three carloads were wasted.

Rippling Rhymes
By WALT MASON

BEGGARS ON WHEELS.

I see a million autos scoot before my dwelling daily; the engines hum, the honk-horns toot, the wheels are spinning gaily. I recognize a lot of jays who thus go whizzing past me, and say, "it beats me how they raise the wherewithal, dogdam me!" For there goes Boggs, who doesn't pay the butcher and the baker, who's standing off, from day to day, the patient undertaker. And here goes Skaggs; I saw him stick a mortgage on his shanty; he couldn't get a prune on tick 'twixt here and Ypsilanti. And there goes Swigg; he's borrowed mon from every friend and neighbor; he's so enamored of his fun, he's cut out useful labor. I see the long procession go, the tireless autos flitting, and wonder, as I watch them flow, what poor-house they'll be hitting. An auto 'aks a goodly hoard; some treat its always wanting; not one in twenty can afford to keep a motor jaunting. But every one now has a car, no man's so badly busted that he can't junket near and far, fast creditors disgusted.

THIS DATE IN HISTORY

October 18, 1832—Emigration to this country which was put to a stop by the war has again commenced. A train of wagons, with families passed thru Springfield, Illinois, from Cairo, on their way to Fulton County. The appearance of these emigrants—their teams, wagons, etc.—showed them to be thrifty farmers.

Jacksonville Lodge No. 570 A. F. & A. M., will hold a stated meeting to-night at 7:30. Visiting brethren welcome.

C. S. Richards, W. M.
E. L. Kinney, Sec'y.

WAVERLY YOUNG MAN IN SERIOUS CONDITION

Ernest Lyons at Springfield Hospital Where He Submitted to Operation for Appendicitis—Other Interesting Items from Waverly.

Waverly, Ill., Oct. 17.—Ernest Lyons was removed to St. John's hospital in Springfield Tuesday night where he underwent an operation for relief from appendicitis. His condition is serious with a slight chance for recovery.

Miss Mattie Hart was removed to St. John's hospital in Springfield Tuesday suffering with a serious case of stomach trouble.

Friends of Bert Farmer formerly of Waverly but now residing in Clinton have received word that he had suffered an attack of infantile paralysis.

Mrs. John Jones and daughter, Miss Mayme and Mr. and Mrs. Robert Haynes returned to their home in Greenfield after a visit at the home of Mr. and Mrs. Eugene Roller.

Mrs. Paulina Wright will leave Saturday for an extended visit at the home of Mr. and Mrs. Frank Lombard at Kansas City, Mo.

Mrs. Frank Curtis is spending a few days visiting at the home of her parents, Mr. and Mrs. John Eyer at Palmyra.

Today will be inspection day of our one cent sale goods. Luly-Davis Drug company, 44 North Side Square.

What Do You Know

About Your Blood Supply?

Your ignorance may startle you.

Few people know of the many functions of the blood supply, and just how important it is that it be kept absolutely free from all impurities. The health of the entire body depends upon the condition of the blood. You are invited to write and obtain a booklet that gives you some invaluable information on this im-

portant subject. It tells how to keep the blood strong and free from the many impurities to which it is constantly subject.

It gives the history of S. S. S., the world's most successful blood remedy, which has been sold for more than fifty years by druggists everywhere. This book will be sent free to all who write to Swift Specific Co., Dept. A, Atlanta, Ga.

WHITE SOX ROOTERS WELCOME CHAMPIONS

The Chicago Americans Arrive
Home from New York

Appearance of Rowland Starts Wild
Demonstration—Manager Carries
With Him Check for the Players'
Shares Amounting to \$91,733.15.

Chicago, Oct. 17.—Five thousand White Sox rooters stormed the La Salle street station late today to welcome home the world's baseball champions. The crowd broke through police lines when the train arrived at 4 o'clock and accompanied by two brass bands, swarmed around the conquerors.

The appearance of Manager Rowland was the start of the wild demonstration. Some of the real fans bristled Rowland to their shoulders and carried him into the street. Traffic in the vicinity was blocked for twenty minutes while the crowd sought to shake hands with the players and the bands thundered "Hail, Hail, the Gangs all Here" and other favorites.

Except Eddie Collins, Mel Wolfgram, Urban Faber and John Collins every member of the club was in the party. Eddie Collins went to his home in Philadelphia from New York and Wolfgang and John Collins left the party at Albany. Faber, who pitched three victories over the Giants, returned yesterday, going to his home at Cascade, Iowa, for a hunting trip.

Rowland carried with him a check for \$91,733.15—the White Sox share of the series, twenty-five players will divide the spoils, each receiving \$3,666. Trainer Bruckner, Joe O'Neill, the club's traveling secretary and Bob Hasbrook who did not join the club until the middle of the season will be presented a tidy sum.

DEFEAT OF FSECOND LOAN ATTEMPTED BY PRO-GERMANS

(Continued from Page 1)

vestigated it was found. It is reported that the person refusing permission also was entirely out of sympathy with the course of the country.

Not until Colonel Lord's announcement today however, did officers believe that the effort was organized. They now say it bears all the imprints of a carefully directed conspiracy.

IOWA UNDER ARREST ON DESERTION CHARGE

Alleged to Have Left National Guard
Company at San Antonio Last
Year.

San Francisco, Oct. 17.—Lieut. Everett Shipley, Battery F, First California field artillery, former resident of Iowa, is under arrest at Arcadia, near Los Angeles on a charge of desertion from the regular army.

Deserts National Guard Company
Los Angeles, Cal., Oct. 17.—First Lieutenant Everett Shipley, confined to his quarters at Arcadia near here, pending court martial on a charge of desertion, according to announcement of the western department army headquarters is alleged to have deserted from an Iowa National Guard machine gun company while it was stationed at San Antonio, Texas, last year.

Shipley enlisted in Battery F, California field artillery as a private but his efficiency soon won him a commission. He enlisted under his true name and told the recruiting officer he had been a captain in the national guard of Iowa, according to officers here. It was not stated that he left his unit on the border. Friends say that as Shipley made no attempt to conceal his identity the charges are technical.

WETS HAVE SMALL MARGIN IN IOWA

DES MOINES, Ia., Oct. 17.—So small is the margin by which the wets lead tonight it is obvious the official count will be necessary to determine the result of Iowa's vote on the constitutional prohibition amendment Monday. Complete unofficial returns show a wet lead of 887 the vote being 214,634 against 213,747 for the amendment.

ACTED AS CONSUL'S FINANCIAL AGENT

Chicago Lumber Dealer Testifies at
Trial of Men Charged With Fomenting
Revolution in India.

Chicago, Oct. 17.—William Wilms a dealer in timber and lumber in this city for twenty years testified today that he had been used as a financial agent for Baron Kurt von Reisswitz, alleged promoter of a revolution in India when he was German consul in Chicago. Wilms was a witness in the trial of Gustav H. Jacobsen and others on charges of conspiring in this country to foment the revolution. According to Wilms' testimony he wrote three checks for von Reisswitz in order that the latter's name would not be connected with the financing of the uprisings in India.

Wilms swore he had given his personal checks to the amount of \$40,000 to the German consul, which money he since has learned had been used to further the work of the revolution.

Joseph Reiderer, another of the government's witnesses told of having quit his position with a switchboard company in April, 1915, at the request of Jacobsen to serve his native country, Germany. He was to serve his country by drilling soldiers for a revolution to be started in Siam he said. It was his training in the German army in which he was a reserve officer which induced Jacobsen to use him for this particular work the witness testified. Reiderer told of attending meetings of American embargo conference and of hearing plans discussed at the meetings for the revolution to be conducted by German agents in India. He said he had received money at different times which the various plots were being worked out. Bogus citizenship papers were furnished him by Jacobsen, he said to facilitate his traveling about the world. Max Jarrasch, a sergeant in the 122 field artillery at Houston, Texas, testified he had been offered a trip to Germany by Jacobsen as an inducement for him to join the forces of the revolutionists. He also swore it was planned for him to go to Detroit and thence to Canada to blow up munitions plants. He was stopped, he said, by a telegram from Jacobsen.

Asked on cross examination if he had not forged a check and cashed it, he said he had forged the name of Jacobsen to a \$20 check and passed it on Adolph George, a liquor dealer.

"I tried to pay Jacobsen several times," Jarrasch said, "but he refused to take the money. He said he would have something on me and I would have to behave myself."

Several minor witnesses were heard before Judge Landis adjourned federal court until tomorrow when cross examination of Wilms will begin.

SOLDIER KILLED IN TRAIN WRECK

Laborer Also Meets Death in Smash-
Up—Sixteen Persons Injured.

Spartanburg, S. C., Oct. 17.—Corporal Arthur Wright, Battery B, third field artillery, Buffalo, N. Y., and W. Jesse Edwards, a laborer of Cavens, S. C., were killed and nine soldiers and civilians injured in a rear-end collision early tonight between an electric train and a switching engine on the Piedmont & North-western Electric lines between this city and Camp Wadsworth. The injured are Privates R. P. Williams, Co. C, 107th infantry; Joseph Fitzpatrick, Battery F, second field artillery; Courtney Stone, Co. L, 107th infantry; Charles Miller, Battery F, field artillery; Harry L. Stribbe, ambulance corps; Harry Triantafyllou, H. 107th infantry; Frank Johnson, ambulance corps; Civilians Samuel E. Pearson, civil engineer, and O. W. McIntyre, carpenter; Privates Fisher, Battery D; Kare, Battery C; O'Grady, Battery B, all second field artillery; LaDuo, eighth company ammunition train; Briggs and H. K. Lauckenau, both Battery D, first field artillery.

All of the wounded soldiers were taken to the base hospital Camp Wadsworth and it was not made known whether their injuries were serious.

H. B. Lineberger, engineer of the switching engine was arrested by the military authorities.

He escaped injury, although his engine ploughed almost thru the electric car which was bringing soldiers and workmen to Spartanburg from Camp Wadsworth, where the New York National Guard is training.

Reports to the military were that the electric car was carrying no rear light and that this was largely responsible for the collision.

MRS. REEVE VISITED HOME

Mrs. Sarah E. Reeve, who has been at Passavant hospital for the past year spent the day at her home on South Main street with her son, T. B. Reeve and family. Mrs. Reeve had not been out of her room for over ten months and thoroughly enjoyed the day, she was rather tired when she returned to the hospital.

DISCUSS NEW PLAN FOR APPLYING DRAFT

Provost Marshall General's Office
Considering Different Plan of
Selection With President.

Washington, Oct. 17.—A comprehensive new plan for applying the army selective draft would take only men without dependents and no particular value to war industries and establish various grades of dependency and industrial value from which future drafts would be made strictly on the selective basis has been worked out tentatively by the provost marshal general's office and discussed with the president.

The plan it was learned today was submitted recently to a conference of civilians who directed exemption board activities in a number of states and received the endorsement of most of them who are now discussing the proposed plan with their state governors.

It is proposed to formulate in each local district a table of all registrants placing each in a column denoting his dependents and individual value in the war's prosecution.

In selecting men for examination boards would first take all men physically fit, having neither dependents nor value in essential war industries. When this class was exhausted draft authorities would draw on the classes having the slightest dependency claims and the least value in essential industries.

Theoretically, the draft would work thru the table to the classes with most dependents and highest industrial value.

No class would be exempted as such, but the valuable men would be placed so that they would not be called until the need for soldiers became more urgent and all the less essential classes were exhausted.

The plan involves determination by the government what industries are most valuable. Farmers organizations, shipping board officials and shipbuilders, munitions makers, railroad heads, coal operators and many others insist on the prime importance of their own employees in civil work. It is understood the entire program will be made known as soon as it is completed and approved by President Wilson to allay anxiety over the next draft.

The proposed plan would meet President Wilson's objections to class exemptions yet would prevent drawing of men into the army who are needed more in industries or in agricultural and would avoid mistakes Great Britain made early in the war when coal mines and war industries were depleted of skilled workers. It also would give each man a definite place in the liability list and set his mind at rest as to when he might be summoned.

The scheme contemplates immediate examination of all men registered, but this depends on an appropriation which cannot be obtained until congress convenes in December.

War department officials explain that the program is incomplete and that many changes may be made. They say, however, that some double classification system seems imperative.

WITH THE SICK

Mrs. W. R. Coultas of 947 North Church street is recovering from a two weeks' illness.

ENJOYING CAMP LIFE

An interesting letter of life at Camp Zachary Taylor was received a few days ago from F. H. Kormeyer of Mercedosa, by his mother. Mr. Kormeyer was one of the first six men to be sent from Morgan county and is at present a member of Casual Detachment No. 1, Sanitary Train No. 309. He states that he likes camp life very much and is much interested in his work.

NORTHWESTERN SHIP YARDS STILL TIED UP

Washington, Oct. 17.—As a result of misinterpretation of messages from the federal wage adjustment board, Chairman Hurley of the shipping board announced today that ship yard strikes had been settled at Portland, Ore., as well as Seattle, Wn. The adjustment board is now engaged in an effort to compose the differences between employers and workers at Portland and Mr. Hurley explained tonight that a message from there relating to the settlement at Seattle led to his error.

ITALIAN PARLIAMENT REOPENS SESSIONS

TURIN, Oct. 17.—The Italian parliament has re-opened its sessions at Rome under circumstances which make a ministerial crisis possible. One phase of the situation has to do with serious riots in Turin the latter part of August, due partly to delay in providing the town with sufficient bread and partly to political discontent, the other phase concerns the food crisis in Italy, which led to resignation of the food controller, Giuseppe Canepa whose place was taken by General Alfieri.

JURY WILL BE GIVEN CASE TODAY

GRAND RAPIDS, Mich., Oct. 17.—Contrary to expectations, the case of Adolph Germer, executive secretary of the National Socialist party and ten other persons, on trial in United States district court here on charges of conspiracy against the draft law, did not reach the jury today. Arguments for the defense were concluded late this afternoon and the government will make its final argument tomorrow. It is now expected the jury will receive the case early tomorrow afternoon.

There are about 320,000 miles of cable in all at the bottom of the sea. The king of Italy is by far the most diminutive of kings, for he stands only five feet, two inches.

Social Events

Sinclair Country Club

The Sinclair Country club met Wednesday afternoon with Mrs. Newton Wilson, with a good attendance of members and several visitors present. The regular program was carried out. On roll call the members responded with My Favorite Fruit. Dr. Milligan was present and addressed the club on registration for women. Red cross work and other matters of interest to women pertaining to the war. A paper was read by Mrs. Albert Hopper, her subject being the "Cahokia Mound Builders." Following the program the hostess served refreshments. The next meeting will be held with Mrs. Charles Bealmer on October 31.

Whipple Academy Students

Enjoyed Picnic Tuesday. Tuesday afternoon the young women and men students of Whipple academy, numbering about thirty, had a picnic and hay ride to Gravel Springs grove, where they enjoyed a weiner roast and a good time generally. They were chaperoned by Mr. and Mrs. J. B. Potter and Mr. McCoy, principal of the academy, and Mrs. McCoy. The occasion was one of very great pleasure for the young people.

Entertained U. C. T.

Woman's Club. Mrs. Abner Thompson was hostess to the United Commercial Travelers Woman's Club at her home on West College avenue Wednesday afternoon. She was assisted in entertaining by Mrs. A. F. Franks. The ladies decided to give their Halloween party on November 3. Following the business session dainty refreshments were served.

Birthday Surprise Party

Miss Florence Hegarty was pleasantly surprised Wednesday evening at her home, 1402 East Railroad street, the occasion being her birthday anniversary. The affair was planned by her sister, Miss Anna Hegarty and Miss Delia Thompson. The evening was spent in games and other amusements. In the guessing contest the prizes were won by Miss Hegarty and Byron Nolley. Miss Hegarty received a number of useful gifts. During the evening delicious refreshments were served. Mrs. Hegarty, Mrs. William Thompson and Mrs. Frank Spiedel assisted in entertaining.

Clio Circle of Litterberry

Gave Interesting Social. The Clio circle of Litterberry Christian church gave a social in the church Wednesday evening which was well attended and greatly enjoyed. Miss Lora Peterfish acted as chairman of the evening and had charge of the program. Miss Elson Barnes was present and spoke on Women's registration. Ten months ago each member was given a dime and told to invest it to earn as much as possible. The reports were made at the social and the amounts that the various members had made their times earned ranged from 80 cents to \$3.05. The manner in which the money was used was told in rhyme and all were clever and ranged from blacking shoes and stoves, crocheting and potato raising. One member bought one potato and raised a bushel of potatoes from it. The program was interspersed with musical numbers and was followed by a social time during which refreshments were served.

THERMITE IS HERE

Freezing weather is here. Get Thermite at Zahn's garage. Opening price \$1.25 per gallon, this week only.

NOTABLE ENGAGEMENT

The appearance in this city of Mme. Sarah Bernhardt, the most marvelous actress that the world has known during the past fifty years, will be an event of extraordinary importance. Fresh from her triumphs at the Knickerbocker theatre in New York where, for three weeks, she lately held crowds spell-bound by her amazing art and her still more amazing youthfulness. Mme. Bernhardt will be seen here Friday night, at the Grand in varied characters, carefully chosen to reveal her at her best, and in some of her most interesting plays.

Mme. Bernhardt will be supported by her own company, from her Paris theatre and will bring with her the costumes, scenery and properties used in the original productions. Her leading man, Mr. Jean Angelo, is a son of that Mr. Angelo who supported Mme. Bernhardt during her first visit to this country.

The repertoire chosen for the engagement here will be: La Mort De Cleopatra and "Portia" in The Merchant of Venice.

BIRTH RECORD

Born, Tuesday morning to Mr. and Mrs. Wiley Gunn of Murrayville, a seven pound daughter.

PUBLIC SALE

H. O. and D. H. Smith will sell at public sale at the home of H. O. Smith, two miles southwest of Chapin, Thursday, Oct. 25, beginning at 10 a. m.: 22 head of horses, 15 milk cows, 7 Short Horn 2 year old steers, 7 yearling steers, 2 yearling heifers and 18 spring calves; 105 head of hogs, a lot of baled hay, farming implements, pony colt and rig.

FOUNDER'S DAY AT WOMAN'S COLLEGE

Founder's day at Illinois Woman's college will be observed with fitting ceremonies Friday. Hon. William Jennings Bryan will make the principal address in Murie hall at 1:30 p. m. Mr. Bryan's subject will be: "Fundamentals—Man's Relation to Government, Society and God." At 10:30 Friday morning services in commemoration of Founder's day will be held in Music hall. All friends of the college and specially alumnae and former students are cordially invited to attend.

FARM ADVISOR PLAN PRESENTED AT CHAPIN

Representative of Department of
Agriculture Meets Farmers of
That Community.

Mr. Sidney Smith, representing the United States department of agriculture spent Wednesday in the Chapin neighborhood. He was met at the station yesterday morning by Harold P. Joy and P. H. Pratt, who drove him about over this territory. He had an especially good day in the district and secured quite a number of subscriptions from farmers, whom he met. In the evening a meeting was held at the Christian church in Chapin. There was a fair attendance and all seemed enthusiastic in regards to the farm advisor plan for Morgan county. After Mr. Smith had explained the object of the movement and its purposes, Roy Potter and P. J. Heintz of Jacksonville made short talks.

Today will be spent in the Lynnville neighborhood. Mr. Walter Rice will drive Mr. Smith thru the district in the morning. In the afternoon he will be accompanied by Mr. Clarence Rice. In the evening a meeting will be held at the Christian church in Lynnville, at which time the plan will be explained and the desires of the government presented to the farmers of the Lynnville community.

DISTRICT FEDERATION

MET AT PEACOCK INN. The Twentieth District Federation of Woman's clubs held a meeting at the Peacock Inn Wednesday which was well attended. Seven counties in the district were represented and Mrs. Glandon of Pittsfield president of the federation presided.

Miss Elson Barnes was present as a guest of the federation and gave a talk on the council of Defense work. The delegates present from other counties which have not advanced as far in the organization for registration of women as Morgan county were anxious to learn of the methods of organization here. Miss Barnes answered a great many questions and gave the delegates some valuable information.

Miss Maria Fairbank addressed the meeting on the Illinois Centennial. The speaker urged the need of awakening interest in the coming centennial and the study of Illinois history. Mr. Smith in government work in army training camps spoke briefly. Mr. Smith talked of health and recreation in training camps and in cities adjacent to the same. Reports were made by chairman of the various committees and delegates. Following the business meeting a luncheon was served.

S. S. PRECINCT CONVENTION

AT HEBRON. Sunday next at 2:30 p. m. there is to be a precinct Sunday school convention at Hebron, when the following program is to be rendered. Song by the audience. Scripture lesson. Song by the audience. Address: "Some things I would like to see done in Morgan county this winter." County superintendent W. H. Crum.

Music by Litterberry quartet. Address: The Sunday School's Place in the World's Greatest Crisis.

Solo John L. Johnson of Jacksonville. Address: "Social and Religious Influence of the Sunday School in the Community." Rev. M. L. Pontius of Jacksonville.

Music by Litterberry quartet.

PROBATE COURT

In the estate of John Atkinson final report approved, administrator discharged and estate declared closed.

In the estate of Ann Wilson, final report. Waiver and consent filed by all heirs. Report approved, administrator discharged, estate declared closed.

PRESENTED RESIGNATION

At the regular meeting of the Athens camp No. 3980 R. N. A. held Wednesday evening the resignation of Mrs. Hattie Braner as recorder was presented and accepted and Mrs. Mabel Dunavan was elected to fill the vacancy. Mrs. Braner leaves soon for Memphis, Tenn., to join her husband and daughters and make her future home. The lodge also voted to change the meeting night from the third Wednesday in the month to the fourth Monday. Following the business session a social hour was enjoyed and refreshments were served.

Like a Boy at 50 Bubbling Over

With Vitality—Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders—
Often increases the strength and endurance of delicate,
nervous folks 100 per cent. in two weeks' time.

NEW YORK, N. Y.,—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The secret he said was taking iron—Nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly all in. Now at 50 after taking Nuxated Iron a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, preventing it becoming organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming

tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were ailing all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron. — E. Sauer, M. D.

NOTE—Nuxated Iron recommended above by Dr. Sauer is one of the newer organic iron compounds. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 90 who lacks iron and increase their strength 100 per cent or over in four weeks' time providing they have no serious organic trouble. They also offer to refund your money if not at least double your strength and endurance in ten days' time. It is dispensed in this city by Obermeyer & Son, Lilly-Davis Drug Co., Armstrong & Armstrong, Gilbert's Pharmacy and all other druggists.

READ THE JOURNAL

OLD JACKSONVILLE

Jacksonville in The Civil War

By Ensley Moore

(Member Illinois State Historical Society)

It is likely to be hard to keep track of what our men do, if the war keeps on, and they get up to the front across the water, owing to the manner in which they are scattered in various regiments or services, and owing to no regiments being named as Illinois troops.

But in the war between the states, in 1861-5, Jacksonville took a very important part. To begin with, the Commander-in-chief of our state troops, by virtue of his position was

Richard Yates.

The greatest of the War Governors; among them being Andrew of Massachusetts, Dennison and Brough of Ohio, Morgan of New York, Andrew G. Curtin of Pennsylvania, Ramsey of Minnesota, Kirkwood and Stone of Iowa, Harvey of Wisconsin, who was drowned at Shiloh, Chandler of Michigan and Morton of Indiana.

Owing to our state being nearly divided evenly, politically, and owing to its great population of Southern birth or descent, especially at the beginning of the War it was a great task our townsman had to face, and carry through as he did till the victory was assured. It is but fair, here to mention Gen. R. J. Oglesby, who became governor in January, 1865, and did his part well until the day at Appomattox when peace came, in April.

An additional disadvantage Illinois was at, in the early days of the conflict, was that we had no proper militia organization, as many of the eastern states—notably Massachusetts—did. Besides this, with Missouri with a large population sympathizing with the Confederacy, on the West, and Kentucky divided against itself, on the South, Illinois had a very different situation, physically and politically, from the eastern states.

Richard Yates was chosen Governor in 1860, when Lincoln was called to the Presidency, and he was in Lincoln's own state, his most efficient helper in countless ways, one being the sending of the unconquerable Grant to bring victory to the National cause.

Yates not only furnished this leader, but he raised regiment after regiment under Illinois commissions, and we also furnished many volunteers to other states, so that

Two Hundred and Sixty Nine Thousand

Illinoisans rallied to the colors. The State furnished many Major and Brigadier-Generals, Jacksonville giving

Benjamin H. Grierson.

Major-General, to the number. He made the great raid of the War, through from Memphis to Baton Rouge, demonstrating the Confederacy to be a shell, long before Sherman so declared it to be. Grierson's work in this was to cut the Confederate lines, ruin rail roads, destroy supplies and do every thing possible to disturb the other fellows, preparatory to Grant's beginning his campaign for the capture of Vicksburg and the opening of the Mississippi river to the commerce of the North West.

So Yates sent two of the most efficient actors and officers in that great struggle. For this Grierson won his star as Brigadier-General. Afterwards he was in command of a large force moving eastward from Vicksburg, through the Confederacy, when the War ended, and he came home a Major-General of Volunteers, being afterwards made a Colonel in the Regular Army, from which he was retired by age, with the rank of Brigadier-General of Regulars. His being made a Colonel was an especial honor, as he was a volunteer and not a West Pointer.

Col. Matt. H. Starr.

Was colonel of Grierson's former regiment, the 6th Ill. Cavalry, when Forest made his raid on Memphis, Tenn., in the late Summer of 1864.

Starr was one of the most valiant and valuable officers in keeping the raiders from capturing Memphis, which would have been a distinct setback to the Union cause at that time. And Col. Starr gave his life to his country, for he was mortally

wounded; being brought home, to die here in the Fall of 1864, at Mayor Mathew Stacy's house on South Clay avenue.

Col. Starr had risen during the service through several grades to the command of his famous regiment.

A Peaceful Part.

Even a minister can do a great part in a war, and President J. M. Sturtevant, of Illinois College, was sent by E. W. Blatchford, a graduate of Illinois College, to England, in 1863 to meet with and speak to the English people, then, many of them, misunderstanding the condition existing in this country, and that they might be led to see the true merits of the Union side of the contest.

About that time Henry Ward Beecher was in England, altho not sent for that purpose, and made speeches and talks of much value to the Federal cause.

Our Own Volunteers.

The references above made to our officers of high position, and to the ministers, are only a part of what Jacksonville did to help Lincoln and Liberty.

Our two companies in the Tenth Illinois were among the very first at the front, at Cairo, April 23, 1861, helping to stay the invasion of Illinois by the cohorts of Slavery; saying:

"Thus far shalt thou come,

and no further!"

Then the 10th, went in for the War, and afterward "veteranized", and Barbour Lewis led out his company in the 2nd. Mo. Cavalry, and other companies from Jacksonville or Morgan county joined other commands. Then, in the Fall of 1862, our own regiment, the 101st, was organized here at "Camp Ditch", the Morgan County Fair Grounds. But this was not enough, for many of our men were in the two short term regiments, in 1862 and 1864, and still others went in to the 10th, and other regiments when they "veteranized", or in the winter of 1864-5. Ever and always Jacksonville and Morgan county responded to the call of America. In this connection, Rodger's Battery, raised here, should not be overlooked.

Soldiers' Aid.

If our men were able, fearless, and patriotic, our women were not behind them in doing all they could for their country's help. From the first call in April 1861, to the last winter of the War, our women worked in clothing the soldiers, feeding them, sending money and delicacies to the hospitals, in taking care of the sick who came home, in caring for the families of the "Boys in Blue", and in a thousand ways. They worked in "Soldiers' Aid Societies" and for the "Christian Commission", which enveloped as the War went on. They made flags and regimental colors, which they presented to the heroes of that day.

Financial Aid.

In those days the "Government Bonds" had the place of "Liberty Bonds" today, and our patriotic citizens took them as they had means to do so.

Besides this our people—as has been already told in these sketches—made large subscriptions to the Christian Commission. Jacob Strawn did a good part, the largest in this, and other well known Union men did as they could afford.

No Boy Scouts

then, but the boys and girls did what they could, in various ways in helping to care for the soldiers, or to cheer them on their way.

Capt. L. B. Glover's boy company acted as escort to the returning "Hardin Light Guard" and to the departing 14th Regiment, in 1861, and they took part in the obsequies of

Senator Stephen A. Douglas.

That name, first made famous here in Jacksonville, was a tower of strength to the Union, for he said: "there can be but two parties, patriots and traitors", and his call sounded as a rallying note to thousands of his followers.

MURRAYVILLE AND THE COUNTY AGENT

The farmers of the up-to-date Murrayville community have shown that they are keenly alive to the farm bureau proposition. Murrayville is one of those rare communities where the men and women have for years co-operated in all movements for community betterment. When a matter for community benefit comes up they are big enough to lay aside their personal and business feelings and join hands to help their neighborhood, county, state and nation. And they did this Tuesday when Mr. Smith went down to secure pledges for a county advisor. They had two live wires to drive him around and plenty of autos and kept him busy all day. They covered about one-third of the Murrayville farming community and secured the pledges of 28 men as follows: Vernon Baker, S. A. Bracewell, Brown and Stansfield, Geo. D. Clayton, Harry Cade, Jas. K. Cunningham, J. H. Fuller, H. F. Garfield, C. Hart & Son, Albert R. Hayes, A. H. Kennedy, Austin King, Alfred Lamb, A. M. Masters, H. E. Millon, R. D. Mawson, C. U. Millon, Henry Osborne, James E. Osborne, H. H. Rimbey, H. G. Strang, Fred Simpson, W. A. Still, David Stansfield, J. E. Thompson, G. C. Whitlock, C. Justus Wright, J. L. Wyatt.

Mr. Smith was more than pleased with his day's work, with the community and with the reception he met at the hands of the farmers vis-

ited. He found prosperous farms and an unusually well developed community spirit and had a most successful day. He is assured that many more pledges will come from there, notwithstanding the fact that the 28 men who subscribed are setting a precedent for other Morgan county communities. One thing is certain and that is if the rest of the county does as well as Murrayville a county agent is assured. Mr. Smith feels that the results he has had in this county assure the success of the movement. He has engagements in other counties which are making campaigns for county agents and wishes to close his campaign here as soon as possible. All over the county there are farmers who want an advisor and he urges them to go to their bank, where pledge cards may be found, and sign now and their banker will forward the cards to Mr. Smith.

EXTRA SPECIAL

We find we have about 2 dozen pairs of 12 and 16 button length kid gloves—colors white, tan, navy blue and black. They are worth \$3.00 to \$4.00 per pair. We offer them for quick selling at \$1.98. Do you want them? They will never be so cheap again.

son has received many inquiries from guardians and conservators as to whether or not they could invest the funds of their wards in the Liberty Bonds.

The statutes of Illinois provide that "It shall be the duty to put and keep his ward's money at interest upon security to be approved by the court, or by investing, on approval of the court, the same in United States Bonds."

Judge Thomson is of the opinion that the statute gives guardians and conservators the right to invest in the present or any future issue of the Liberty Loan Bonds. In order to remove any doubts that may be entertained he states that the Court will approve the investment of the funds of the ward in such bonds.

Rev. A. F. Ewert, J. H. Overby and H. G. Overby of White Hall were numbered among the business visitors in the city yesterday.

MONOPOLY OF EASTERN CLUBS BROKEN

So Far as American League is Concerned—Triumph of East Over West in Race for the Pennant is Difficult to Explain.

Chicago, Oct. 17.—When the Chicago White Sox copped the American league championship this season they broke up the pennant-winning monopoly long enjoyed by the eastern clubs. That is to say, they broke up the monopoly so far as the American league is concerned. In the National league the same old championship trust is still doing business on the Atlantic seaboard. Why the big leaguers of the east have triumphed so often over their western brothers in the race for the flag is a matter difficult to explain.

Surely, there are as many star players pastime with the western teams as there are with the eastern

outfits. As a matter of fact, the individual records show that top-notchers in every department of the game are more numerous among western teams.

And in the matter of management, also, the western teams appear to be on a par with the teams at the eastern end of the circuits.

West Far Behind East
Still, the fact remains that the major leaguers of the west are far behind the eastern pastimers in the winning of championships.

In 1876, the first season of the National league, there have been 42 pennants won on the old circuit. Of this number the eastern clubs have won 27 and the western clubs 15. No western club has won a National league pennant since 1910, in which year the Chicago Cubs breezed home a winner under the leadership of Frank Chance.

From 1910 to the present time, the New York Giants have won four pennants, while the Boston Braves, the Phillies and the Brooklyn Dodgers have in turn copped one flag each.

In the west, Chicago and Pittsburgh are the only pennant winners in the National league. St. Louis and Cincinnati never having won the honor. Chicago was the home of pennants in the early days of the old league, the original White Sox having won six championships in the first ten years of the present circuit. This string of pennants, with the addition of the four won in later years, gives Chicago the edge in the way of championships.

The number of pennants won by cities comprising the National league circuit, past and present, includes the following: Chicago, 10; Boston, 9; New York, 8; Brooklyn, 4; Pittsburgh, 4; Baltimore, 3; Providence, 2; Detroit, 1; Philadelphia, 1.

McGraw Leads the List
Of the pennant-winning managers now in the National league, McGraw of the Giants leads the list with six championships to his credit. Stalling of the Braves, Moran of the Phillies, and Robinson of the Dodgers have one pennant each.

In the American league it is pretty much the same story. The eastern teams have shown the way in a majority of the races for the bunting. Eighteen championship races have been staged since the American league was organized. Of this number the eastern clubs have won eleven pennants and the western clubs seven.

Until the White Sox grabbed the honor this season no western team had finished at the top since 1909, when the Detroit Tigers brought home the bacon.

Philadelphia tops the list of American league pennant winners, the Athletics having won six championships. Next in order comes Boston with five, Chicago with four and Detroit with three.

Among present American league managers who have won pennants, the west has it on the east three to two. Connie Mack of the Athletics, Clark Griffith of Washington, Hugh Jennings of Detroit, Clarence Rowland of the White Sox and Fielder Jones of the Browns are the champion pilots. Griffith and Jones, both won pennants while managing the White Sox.

Of the combined total of 60 American and National league pennants, eastern teams have won 38 to 22 for the western teams.

MATINEE RACES TODAY

Good weather prevailing the racing matinee given by the Jacksonville Driving Club at the South Side driving park this afternoon should prove one of the best the club has ever held.

Four good races are on the card and some of Morgan county's best horses will be entered. Clark Green expects to have three of the horses he raced during the summer entered in the various events. John W. Clary is entering a good one and Dave Neal of Roodhouse is here to do the driving for Mr. Clary. Mr. Neal is one of the oldest and best known drivers in the country.

One race that is being looked forward to this afternoon is that between Marie Constant owned and driven by Clark Green and Peter Kingston, owned by Charles Thompson and driven by Newt Purvins. Marie Constant has a record of 2:12 1/4 and Peter Kingston has a mark of 2:10 1/4. Both are game racers and spectators may look forward to a hotly contested race.

Miss Ophelia Peter, Sim and a number of other high class horses are also entered in the events. The racing starts promptly at 1 o'clock and the club, with such a high class card, should have a large crowd.

EVANGELIST HANLEY TALKED AT CAR SHOPS

Evangelist Hanley talked to the men at the Chicago, Peoria & St. Louis car shops Wednesday noon. About sixty five men heard Mr. Hanley's address and much interest was shown. Fred Fisher led the singing. The party was asked to make another visit and will hold a meeting at the shops next Wednesday at noon.

Today the Hanley-Fisher party will hold a noonday meeting at the McCarthy-Cobert cigar factory. It is expected that this meeting will be of unusual interest. A series of meetings from automobiles is planned for Saturday of which more detailed announcement will be made later.

Some Prophecies of the Great War

The Kaiser Doomed?

A poet has said coming events cast their shadows before and occultists affirm that every event that has happened, or ever will happen, is written upon the astral atmosphere, where he who is psychic may read.

An English occultist, Mr. Ralph Shirley has made a collection of olden prophecies, many of which seem to apply directly to the present war. Among the most interesting of these is that curious one known as the "Gypsy's prophecy."

It seems that in 1849 the Kaiser's grandfather, Prince William of Prussia, was wandering incognito thru some of the provinces of the Rhine, he was at that time very unpopular, owing to his attitude toward the Berlin revolution of 1849, and therefore had little thought of ever coming to the throne.

At Mayence a Gypsy woman offered to tell his fortune and addressed him as "Imperial Majesty." Not a little amused the Prince asked, "Imperial Majesty, and of what empire, pray?" "Of the new German empire," was the reply. He inquired, "When is this empire to be formed?"

The Gypsy took a piece of paper and wrote on it the year 1849. Then she placed the same figures in a column beneath:

1849

1

8

4

9

1871

By adding, the sum obtained being the beginning of the empire.

"How long am I to rule over this empire?" asked the Prince.

The Gypsy repeated the mathematical operation again, taking the number 1871 and adding the same figures in a column:

1871

1

8

7

1

1888

The result being the time of his death.

Then the Prince asked "How long is this empire to last?"

And the Gypsy, taking the figures 1888 and repeating the same operation:

1888

1

8

8

8

1913

Time has proven the first two clauses of this strange prophecy to be true; as to the third—well, the war began in earnest in 1914 and may that year not have been the beginning of the end of the Hohenzollern empire?

From present conditions it would appear that this year or 1918 must give us an answer to the last clause.

Another old prophecy foretold that Germany would meet disaster when she was ruled by an emperor who mounted his horse on the wrong side. It is a curious fact that the Kaiser, owing to his lame arm, has to mount his horse on the off side.

A Japanese prophecy, dating to 1793, reads: "When men fly like birds, ten great kings will go to war against each other, and the universe will be under arms."

Some time before his death Count Leo Tolstoy said:

"A great conflagration will start about 1912 in the countries of south-eastern Europe. It will develop into a destructive calamity in 1913. In that year I see all Europe in flames and bleeding. I hear the lamentations of huge battlefields. But about the year 1915 a strange figure from the north—a new Napoleon—enters

the stage of the bloody drama. He is a man of little military training, a writer or a journalist, but in his grip most of Europe will remain until 1925. But then a great reformer arises. He will clear the world of the relics of monotheism and lay the corner stone of the temple of pantheism. God, soul, spirit and immortality will be molten in a new furnace, and I see the peaceful beginning of an ethical era. The man determined to this mission is a Mongolian Slav. He is already walking the earth—a man of active affairs. He himself does not realize the mission assigned to him by a superior power."

Evidently these reformers are to be Russians, or at any rate Slavs. In the light of the late Russian revolution can the new Napoleon be identified with any of the leaders? And the "reformer," may he not be identical with the great world teacher whom theosophists look for after the war, and when peace has been established?

Coming down from these musty prophecies from the past to the present, a noticeable prediction is that made in 1912 by the French mystic, Madame de Thebes, who has only recently died. She said:

"Germany menaces Europe in general, and France in particular. When the war breaks out, hers will be the responsibility, but after the war, there will no longer be either Hohenzollern or Prussian hegemony. This is all Berlin will gain by her violence and the brutality of her political methods. I have said, and I repeat, that the days of the emperor are numbered, and that after him all will be changed in Germany."

Also she predicts "a great silence in Russia; then a thunderclap; after that new conditions; in short, the awakening. And the future smiles on Poland."

And does it not look now as if Poland might come into her own in the future settlement?

Most people are more or less familiar with Bible prophecies, many of which seem to be coming true at this time. In Revelations 13 we find verses 4, 5 and 18 are much along the line of some of the foregoing prophecies.

Revelations 13: "And they worshipped the beast, saying, 'Who is like unto the beast? Who is able to make war with him?'"

Revelations XIII:5: "And power was given unto him to make war forty and two months."

Revelations XIII:18: "Here is wisdom. Let him that hath understanding count the number of the beast; for it is the number of a man and his number is six hundred three score and six."

Now the number 666 has been regarded as that of the reincarnated Nero, who is said to reappear on earth at intervals. One student of biblical prophecies has said that "Six hundred three score and six years is not the age of a man but that six hundred three score and six months are and equal to 55 1-2 years."

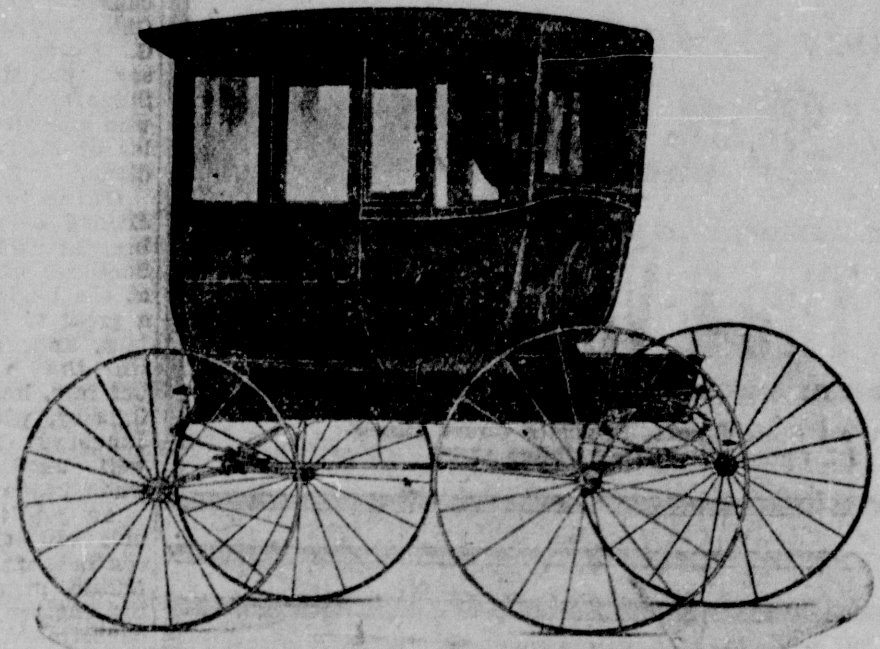

Emperor William was born Jan. 27, 1859... 1—27—1859 Add his age in July, 1914.....6—0—55

Beginning of war.....7 27 1914 And power was given him to continue forty and two months. If this refers to the present war, it indicates that the war will end January 27, 1918 (the Kaiser's birthday), and forty two months from the beginning of the war.

Some of the points of these predictions have already come true; some it seems, can never be verified; while others can only be shown, to the majority of us at least, by the hand of that truly great scribe, Time and Time, alone.

Where Quality Rules and Service Is King

The Home of the Quality Storm Buggies

The time is here when you need this kind of a job.

Save the chill of bearing rain and doctor bills. Preserve your health and be comfortable

You need one and you know it. If it were possible to build better buggies we would have it done. Nothing overlooked to bring out the BEST, regardless of cost. Insulation

Every part of your electrical system must be made leak proof by insulation.

Inside your battery is the most important insulation of all—that which separates the positive from the negative plates, for this prevents the battery from "short circuiting," and thus putting the whole system out of commission.

In the Still Better Willard, the insulation is made of durable, acid-resisting rubber.

Thus Willard Threaded Rubber Insulation means a better insulated battery, a more durable, more efficient battery.

Ask us about the remarkable service achievement of Still Better Willards on 35,000 cars.

ASKS CLERGYMEN TO PREACH ON FOOD CONSERVATION

In a letter sent out recently to the heads of the churches in the United States, the Food Administration makes an appeal for one hundred thousand sermons, to be preached on October 21 in behalf of Food Pledge Week which begins that day, to a total of nearly forty million persons. The pledge card campaign will be waged from Oct. 21 to 28.

"No other power in this country," writes the Food Administration in his letter, "can more effectively reach the homes and put through a great systematic program of voluntary, unselfish service than the organizations which represent the religious faiths of our nation."

The note is being sent personally to the hundred thousand preachers in the churches and synagogues over the country, asking each one of them to make to his congregation a formal appeal for the cause of food conservation on Sunday, Oct. 21.

David Neal of Roodhouse was a city caller yesterday.

FUNERAL NOTICE

Funeral services for George A. Megginson will be held from Woodson Christian church Friday morning at 10:30 o'clock in charge of the Rev. Mr. Oldham. Burial will be in Asbury cemetery.

BREAKS A COLD IN A HURRY

"Pape's Cold Compound" is pleasant and affords Instant Relief.

A dose taken every two hours until three doses are taken will end gripe misery and break up a cold.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine. Don't accept something else.

To Stop a Persistent, Hacking Cough

The best remedy is one you can easily make at home. Cheap but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking-on cough year after year, disturbing their sleep and making life disagreeable. It is so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (60 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relief comes almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

"ILLINOIS POLITICS MUST BE KEPT OUT"

GEN. HILL STANDS PAT AND SAYS HE CHOSE THE FIFTH REGIMENT FOR DISMEMBERMENT

Impressive Exercises As Solemn As A Funeral Mark the Passing.

Stating plainly, over his signature, that he did bring about the dismemberment of the Fifth, when faced with the fact that one of the regiments of his brigade, the Third, the Fourth or the Fifth, must be dismembered, Brig-Gen. Henry R. Hill has written his defense of this action as follows:

"Headquarters, Sixty-fifth Brigade, Camp Logan, Houston, Texas. Gentlemen:

"Enclosed find a copy of 23rd Division General Order No. 23, completing the reorganization of the Illinois N. G. As it appears that you believe it some fault of mine that this happened to the Fifth I will answer as follows: The higher officers of the Fifth have exhibited by many acts a desire not to be under my command, and when I arrived here and found that two regiments would constitute a brigade, and was asked what two regiments would naturally fall to me, I replied the Third and the Fourth Illinois. The Fifth was not in federal service with me last year, nor was I called into service with them this spring. Nor, had any order been received assigning that regiment to me since the call of July 25. Moreover, the Third and Fourth saw nine months' border service under army command and their record was excellent and their officers and men a loyal lot of men. The record of the Fourth Guard in the United States as regards discipline in camp and on march, and the records of both regiments for clean camps, good discipline and general training has few peers in the service. More of the officers in these two regiments have had training at the Fort Sill school than in any other regiment. These two are assigned to my brigade, the 65th.

"A gentleman has mailed me a newspaper account of a letter sent through my headquarters to the division commander. This letter appeared in The Herald under date of Oct. 9, 1917. It is sufficient to say that the letter was endorsed by me recommending the interview requested, which occurred. The article states that Colonel Wood and the Fifth 'have sawed wood and said nothing.' As this is a great qualification for soldiers I am glad they have learned it at last. I have felt in the past that the newspaper exploitation was excessive.

"I am the one that has to live with, train, and command the 65th Brigade, and to be responsible for the discipline.

"I believe that General Todd has done the best for the Fifth Infantry that he could, as it was rendered superfluous by the change that makes a division four regiments instead of nine of infantry, and makes other units, like machine companies and extra artillery, necessary.

"The Fifth and Eighth Infantry are both camped in the portion of the camp assigned to me, but that does not mean that they are or were to be permanently in this brigade. In the matter of administration I had charge of the whole camp, practically, at first, while the division headquarters were getting organized, and I naturally looked after the supply and camps of the regiments that had been assigned to me prior to June, 1916, that is the 3rd, 4th, 5th and 8th, but that is considered a job for two brigadier generals now that a regiment has 3,750 men in it, and so I will leave it this way and admit that I did choose the Third and the Fourth, and that veiled hints or 'sneak' 'slung' will not change my opinion.

"Respectfully, (Signed) 'Henry R. Hill.' General Todd Stands Pat

Camp Logan, Oct. 16.—That there will be no change in the general order for the reorganization of the Thirty-third division, so far as division headquarters is concerned, was made very plain by Brigadier General Henry D. Todd, Jr., who is in command of the division. "I can understand how keenly disappointed Colonel Wood must feel at losing his command," said General Todd, "but we have done what we thought best for the division."

The division commander paid Colonel Wood a high personal compliment and said: "It is a situation in which Colonel Wood is entitled to a great deal of sympathy." At the same time he made it quite clear that there would be no change in the program unless it is ordered by the war department.

Relies On Act of Congress Colonel Wood believes that the order destroying the identity of his regiment is void. He urges that it is in direct conflict with house bill No. 3545, approved by President Wilson, May 18, 1917. This act of congress "authorizes the president to increase temporarily the military establishment of the United States." He points out that section 3 of this act declares: "Provided, further, that the number of organizations in a regiment shall not be increased, nor shall the number of regiments be decreased."

He also calls attention to war de-

Heal Skin Diseases

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little Zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress. The E. W. Rose Co., Cleveland, O.

partment bulletin No. 16, which is said to be based on the national defense act, and in which is found the following language: "Provided that where complete units are organized within a state, territory or the District of Columbia, the commanding officers thereof shall not be displaced under the provisions of this act." This law was approved by President Wilson June 3, 1916, and has never been repealed.

Gen. Dadds' Statement Houston, Texas, Oct. 16.—"Illinois politics must be kept out of the Thirty-third division."

This is a statement made today by Brig. Gen. H. D. Todd, Jr., acting commander of the division and is a result of the situation arising out of the statements made by Brig-Gen. Henry R. Hill of the Sixty-fifth brigade, and Col. Frank S. Wood, of the Fifth Illinois Infantry.

"When Col. Richings J. Shand, adjutant general of the State of Illinois, went back home today, I sent word by him that politics must be kept out of this Division," said Gen. Todd.

"This is an Illinois division. We want it to remain so and we are proud that it is. We want the Illinois people back of us. We want all the help we can get from Illinois. We want a feeling of cordiality between the soldiers and the people of the home state.

"But it must be borne in mind that this is no place for politics. I will not permit anything of the kind. I told Colonel Shand to tell the people of Illinois just exactly that. If the lieutenant-governor of the state comes down here, as I have heard he will, he will be cordially received, but his visit will have no effect on the running of this division of the army. We are under Washington and not under the State of Illinois.

The Passing A copy of Saturday's Houston Daily Post, containing the obsequies of the Fifth Illinois regiment, which passed out of existence Thursday at midnight, reads as follows:

The Fifth Illinois Infantry passed away Thursday midnight. Its companies are now assigned to machine gun battalions, the engineer train, train headquarters and the ammunition train. Within a few days the old regiment will be merged into the Thirty-third division of the United States army. Whatever identity it retains will be in the hearts of its men and the memories of its friends back home in Illinois.

It is not an easy thing for a regiment to die. A regiment has a soul as truly as any being has a soul. It has its spirit, its tradition, its custody, its history—all that the expressive French gathers into that closely packed word, "esprit."

Friday night, after mess, a strange thing happened in the old Fifth—a strange and beautiful thing.

Started a Farewell No one started it. It was one of those things that grow naturally.

The men were sitting in their company streets, chatting in low voices, talking of but one thing; the disruption of the regiment.

A company began to cheer for itself, its officers, its men. Another company took it up, and another. The band collected and hastened indoors for instruments. Then it formed in its company street.

From somewhere the word went down the line: "Fall in on your company streets."

The men scrambled up, swarmed out of tents and formed on their parade, silent.

Captains, lieutenants, sergeants, whoever happened to be the ranking man nearest, took command.

"Squads right, march," the order rang out in one street. "Squads right, march," it ran through the others.

The men of the Fifth Illinois infantry were marching up to salute the man who was so long their colonel, now their colonel no more.

Massed Before Tent Sixteen hundred strong they massed before his tent. They cheered him once, twice, again.

Colonel Wood stepped out in front of his tent, his grizzled head bare. He tried to speak. He could not. His voice was choked with something that must have been tears.

Then he found his voice. "Men of the Fifth," he said, "your regiment and my regiment is no more."

His eyes flashed as he went on. "We have tried by every fair means to keep the old Fifth together. It is too late. The thing is done, and we have little hope that we can undo it."

"But I want every man of you to remember: The reputation of the Fifth goes with you. No matter where you are assigned, show them that you are true sons of Illinois, true soldiers of the old Fifth infantry, by your bearing, conduct, your spirit, your willingness to serve where you are sent. I have no fear that you will not. I know that my men will always be such men as I was proud to call mine."

The colonel ceased. A mighty shout went up from 1,600 throats. The band struck up "Illinois." The men of what was the Fifth had said their farewells to a regiment and its commanders. It was a strange thing—and beautiful.

MUCH IN LITTLE A Kansas inventor has devised heels made mainly of coiled springs covered with flexible leather.

From less than half an acre of strawberries, Lewis Gordon of Lyndonville, Vt., picked 1,800 baskets of the berries.

Rumania has asked Japan to send 100 physicians and Japan will probably comply. It is said that epidemics are prevalent in Rumania.

The capital stock of the American Telephone and Telegraph Company outstanding on December 31, 1916, was \$395,603,600, and the number of stockholders of whom the majority are women, was 70,555, not counting employees.

In all English counties, births in the ten intercensal years outnumbered deaths, yet in six—London, Cumberland, Westmoreland, Cardigan, Radnor, and Montgomery—the popula-

tion decreased, showing the losses by migration.

The senate is continuous, it never dies. Senators are elected for a term of six years, in such a way that one-third of the Senate goes out of office every two years, so there is never a complete change of its membership at one time.

A new project of American engi-

neers is a giant canal 250 miles long to connect the Arctic Ocean and the Baltic sea, extending from Kandalaska, on the White Sea, to Tornea, near the Swedish frontier on the Gulf.

Charles Lewis, the well known grain dealer of Springfield, was in the city yesterday looking after his interests here.

Columbia Grafonola and Double-Disc Records

Why should you buy a phonograph before you learn to play one?

Learning to play a Columbia Grafonola is simply a matter of watching a Columbia dealer play one or two records. Then you can play the instrument yourself.

You will find no lack of opportunity to play a Columbia Grafonola at any Columbia store. They are very glad to have you play the Grafonola as much as you like, and the more you hear it the better the chances are that you will finally buy a Columbia Grafonola.

It may be a few weeks before you will be ready to buy a phonograph, but there is absolutely no reason why you should not put in that time with pleasure and profit.

The Columbia salesrooms are operated for no other purpose than to give the public a chance to see the Columbia instruments and to hear the Columbia records. It is well understood by the Columbia dealer that sensible people cannot be rushed or hurried into the purchase of

any kind of a phonograph. He expects you to take your time, and wants you to feel at home.

Buying a Grafonola is really a very pleasant piece of business and the Columbia dealers try to make it even more pleasant. So do not hesitate to go in and get acquainted with the Columbia Grafonola. If you like, you may have the instrument sent to your own home and become familiar with it there.

Play the same records on it and on any other phonograph you or your neighbors have. The wonderful tone of the Columbia Grafonola will be plainly apparent. On this test it practically always wins.

Above all, do not hesitate to visit the dealer; hear the instrument played and ask questions about it, because every question asked about a Columbia Grafonola gives the salesman an opportunity to display and demonstrate the extremely desirable character of the instrument.

Columbia Grafonolas are priced at \$15 to \$350—Period Designs up to \$2100

STOMACH UPSET?

Get at the Real Cause—Take Dr.
Edwards' Olive Tablets

That's what thousands of stomach
sufferers are doing now. Instead of
taking tonics, or trying to patch up a
poor digestion, they are attacking the
real cause of the ailment—clogged liver
and disordered bowels.

Dr. Edwards' Olive Tablets arouse the
liver in a soothing, healing way. When
the liver and bowels are performing their
natural functions, away goes indigestion
and stomach troubles.

If you have a bad taste in your
mouth, tongue coated, appetite poor,
lazy, don't-care feeling, no ambition or
energy, troubled with undigested foods,
you should take Olive Tablets, the sub-
stitute for calomel.

Dr. Edwards' Olive Tablets are a
purely vegetable compound mixed with
olive oil. They will know them by their
olive color. They do the work without
gripping, cramps or pain.

Take one or two at bedtime for quick
relief, so you can eat what you like.

GREEN FAMILY LONG TIME COUNTY RESIDENTS

Founder of Family in Morgan County Was Born in Virginia—Interesting Bits of Family History Recounted by Austin Green, Now Past Eighty Years of Age.

Morgan county has within its borders many families with a history and reputation in which both the individuals and the community may take an honest pride. One of these is named Green and they are very largely identified with the history of the county from its beginning.

John Green was born in Virginia but not liking slavery seeing no peace for a hated Abolitionist where the institution existed he removed to Ohio at an early day in the last century and in 1822 to Illinois coming from Licking county and settling near Dunlap Springs. His sons were: Stephen, James, who lived in the Ashbury neighborhood; Wm. B., who lived in Chicago; Joseph who lived near Prentice; his daughter Mary became Mrs. Potts of White Hall; Nancy married a man named Morris in Seneca, Ia.; Matilda became the wife of the cattle king, Jacob Strawn; Susannah married a man named Harrison of New York and Mrs. Joel Robinson of Prentice.

When Matilda and Jacob were married they had but little of this world's goods. They married in Ohio and Mr. Strawn's son, Isaiah, said the start his father had in life was one calf. He worked in the woods and his wife would burn brush to make a light while he split rails after dark.

Only One Son Now Living. Of the sons mentioned, Stephen settled half a mile south of his father; Francis M., died recently nearly 85 years old, in Washington; Horatio R. lived in the east part of the county and died a number of years ago leaving an estate of 550 acres of good land; Austin B. lives six or seven miles southeast of the city on a beautiful farm of 320 acres; Marshall, a member of the famous 101st Ill. Infantry, died several years since in Jacksonville, Oliver, the other and only remaining brother, has lived for a number of years in Chicago, where he is a valued employee of a large commission house at the stock yards. Of the sisters; Elvira married Oliver Cully; Louise married the late John Potts and both are dead; Miss Cynthia lives in Jacksonville on West College avenue.

Marshall left two children, Frank of Strawn's Crossing and Miss Alice, with the Dunlap, Russell & Co., bank; Oliver has one daughter; Horatio left one son, Dr. Thomas Green, now a second lieutenant in the medical corps at Fort Riley, Kansas; Edward O., residing a few miles east of the city; Lottie in Chicago; Elsie in Chicago; Scott B. east of Jacksonville and Mrs. Nellie Harley Forsythe of Minneapolis, Minn.

Advantages Were Limited. Austin Green was born June 26, 1837, and enjoyed the advantages which the rising generation of that day had and they were not especially abundant but he did have a good father who tried to raise his children in a proper manner and they have done his memory credit. Austin was married Feb. 12, 1861 to Mary J. Recker, member of another good Morgan county family. Her brother, James went to business college at the time the writer was a teacher there a good while ago. Mr. Green's children are Nettie, Mrs. E. M. Anderson of Sangamon county; Clifford of western Nebraska; James of Lamar, Mo.; Charles, deceased; Elmer of Modesto; Leila, Mrs. W. T. Craig; Minnie, at home; Clark, the well known horse man on West College street, Jacksonville. Mr. Green has fourteen grandchildren and four great grandchildren.

A short time since the writer had the pleasure of a visit at the home of Mr. Green and enjoyed it exceedingly and from that gentleman ascertained the facts already given and a good many more interesting things.

When Stephen Green married he had an eye to the fine prospect out on what is known as Mound and came near entering some land there but his friends dissuaded him from it telling him he would freeze to death there as the winter winds would have such a sweep on that high point.

Stephen Green well remembered when Jacksonville was started. A number of men thought there ought to be a county seat so they looked about from one place to another and finally decided on a spot, drove a stake and in honor of the hero of the battle of New Orleans, called it "CASCARETS' BEST IF HEADACHY, BILIOUS, SICK, CONSTIPATED"

Best for Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.—Adv.

Jacksonville. The story of the colored boy who passed by the spot, is told. The men asked him his name and he told them it was Andrew Jackson and they told him the spot they were going to make into a town was named for him and the boy held to the belief and told the writer of it later in life.

Early Settlers' Methods Were Crude. St. Louis was then the metropolis of the west and to it were taken stock and grain. It took about fourteen days to drive down a lot of hogs and they brought two to three cents a pound when they reached the place. The early settlers used to tramp out their wheat with horses, clean it in hand windmills and haul it to St. Louis with oxen and sell it for fifty cents a bushel.

At one time young Stephen, then 18 years old, wanted some "store clothes" as the apparel they wore was jeans or home spun made from wool carded and spun by hand and woven in a hand loom. He and Isaac Reeve walked to St. Louis and obtained employment long enough to earn the coveted cloth brought it home and left it with a tailor whose shop was somewhere near the site of the old courthouse and while the goods were there the building burned and the poor boy was doomed to disappointment.

He next filed Galena working his way up the river on a keel boat which craft was fitted with ropes and the crew would tie the end of a rope to some object along shore and the other end to the boat and those on board would pull the boat up to the spot and so they laboriously worked their way along from St. Louis.

After he had finished working in Galena he worked his way back to Quincy and walked home finding but two or three houses between Quincy and the Illinois River.

First Hedge Fence in County. Stephen Green raised the first successful hedge fence in the county. Prof. Turner had sent away and secured a little seed with which he grew a small strip which satisfied him that a hedge fence was practicable. Then he hired men whom he sent to Texas for seed.

The trip took six months and they returned with a few bushels of seed which cost \$300 a bushel and that was the start of the hedge which was in its day such a boon to farmers of this region where lumber was so scarce and expensive. The hedge was planted in 1848 and Prof. Turner used to bring incredulous people out to see it.

Stephen Green married two months before he was of age and his father required of him his services for these two months according to law. He managed to raise ten acres of corn though and so got along with plenty of hard work and thrift. They needed knives and forks and the young wife made some butter which then sold at a very small price and mounting her horse, for buggies and spring vehicles were unknown then, rode to town and traded her butter for a set of knives and forks which she brought home with great satisfaction.

Austin built, when first married, north of the present site of his home and lived there nine years and then moved but as time passed on the house became too small for them so he built a fine large one and moved into it December 14, 1892 and January 11, 1893 it was burned. It was not much like the little mansion in which he began with two small rooms and few of the conveniences yet there was fully as much happiness as in the larger dwelling. He tells with much feeling how they had no candles and rather than go and borrow the very first day of their wedded life they put some grease in a saucer and with a wick protruding over the side of the saucer managed to have a light.

Mr. Green remarked that he bought of his visitor in 1871 a Charter Oak cook stove which did good service 21 years and then was destroyed in the fire of January, 1893.

Recognized By Few. The fire was so sudden that they lost practically all they had and while it was hard Mr. Green had a lot of fun out of it. It had been his custom to shave the sides of his face and his upper lip leaving merely chin whiskers and when he came to town he generally fixed himself up in a genteel manner. At that time he let his beard and moustache grow, arrayed himself in a shabby suit of clothes and an old cap and came to town and the he had lived here all his life but one person recognized him. He went into the Jacksonville National Bank and approaching the cashier said:

"Mr. Beesley, how is my account?" "I-I-I that is-I-I must have forgotten your name."

"Come now, I've had my account here almost since the bank started." "I must say I-I-I don't recall your name."

And then he told him and a big laugh went around at the cashier's expense. Going out on the walk he met the writer who had known him twenty or thirty years.

"Mr. Nichols, how's my subscription to the Journal?" "Let me see—that is—what Post office?"

"Why Jacksonville, of course, where it always has been."

"When did you start the paper?" "Start it? Why, I've taken it 25 years."

"Pardon me, but I must know your name."

"Well now, don't you know Austin Green?"

And then the laugh was on the newspaper man and so it went all day.

Is Successful Farmer. Mr. Green has been a successful farmer and shows a field, not at all worn out, containing forty acres and on which he raised 125 bushels of corn to the acre in 1866. He says he really is satisfied it would have been more if he could have fully secured all there was but he cut the corn so as to get the field into wheat. He has fed lots of cattle

and hogs in his day the conditions have changed now and men don't follow the same plan. In the good, old days the rule was 75 bushels of corn to fatten a steer with three hogs for profit but it will hardly answer now.

There is some contrast between the new home and the one in which Mr. and Mrs. Green began life. Instead of a lard dip they have acetylene gas and a hard coal base burner replaces the old fashioned fireplace which gave lots of ventilation, burned the face and froze the back.

Mr. Green shows with much interest an old time tar bucket which once was filled with tar and hung to the rear axle of a big wagon such as very few of the present generation have ever seen.

He has a yoke made for two calves, a piece of boyish handiwork when he was twelve. Altho past eighty, Mr. Green enjoys excellent health and bids fair to outlast many a person much younger. His wife is with him yet, quite hale and hearty and his dutiful daughter, Minnie, sees to her aged parents with the love and devotion of a dutiful daughter, and one granddaughter, daughter of their son Charles, makes her home there too but is now away at school.

**ELMER LUKEMAN
WRITES FROM BROOKLYN**

Is Much Impressed With Conditions in the Navy Yard at That City.

A short time since the Journal mentioned the transfer of Elmer Lukeman from Texas to the navy yard at Brooklyn and the Journal is permitted to present a letter from the young man to his mother: Brooklyn, N. Y., Oct. 10th, 1917.

Dear Mother: Suppose you think I am on my way to France since I haven't written you for several days and knowing I was going to be transferred to this post.

We left Savannah, Ga., Saturday evening, Oct. 6th and arrived here Sunday morning, Oct. 7th. It certainly was a fine trip and I enjoyed it immensely. We were first class passengers and it was a great pleasure to be able to sleep all we wanted to and to have so many good things to eat, after spending three months on Paris Island. It was very interesting to see so many foreign vessels interned here, as we sailed into the harbor yesterday morning, the "Vaterland" being among them. When we reached the navy yard we saw the battleship "New Mexico" which is being constructed and as you know will be the biggest battleship in the world. Was very fortunate in being transferred to this post as it is by far the best one in the marine corps. The barracks here is one large building about a block long and twelve men live in one squad room, and the mess hall is in the same building. This also is a great improvement compared with conditions on the island.

Our work here consists of guard duty. We are on duty twenty-four hours and off twenty-four, and the day we are on duty we are on two hours and off four hours. The days we are off duty we get liberty from 1:00 p. m. until 6 a. m. the next morning. I was on liberty yesterday and spent most of my time in the big city across the bridge. Some of the fellows live in New York and they are showing the rest of us their city every chance we have to get away.

They issued our new uniforms to us yesterday and we think they are pretty nice. They are forest green and are the same style as the English and French uniforms. Ours were the first ones to be issued here, so you can imagine how the people looked at us as we walked down the street, several asking us if we weren't Canadian soldiers. We sure-

ly were glad to get them as they are heavy and very warm, because we almost freeze here after being in such a warm climate. It is nearly time for "chow" so must close for this time. Hoping you are all well and that I will be able to get home in a few weeks.

Your loving son,

Elmer.
Address: Private E. J. Lukeman,
Co. 60, Marine Barracks, Brooklyn
Navy Yards, New York.

SPECIAL TAX NOTICE.

To All Persons Interested: Notice is hereby given that the Board of Local Improvements of the City of Jacksonville, has presented to the County Court of Morgan County its certificate of final completion and acceptance of the improvement of that part of South Clay avenue between the South line of East Morton Avenue and the South line of Superior Avenue, in said City consisting of a Street pavement. The final hearing on said application has been fixed by the County Court of Morgan County, Illinois, for the first day of November, A. D. 1917, at the hour of 9 o'clock A. M. of said day; that objections to the said certificate and application must be filed in said Court before the time set for such hearing.

Dated this 11th day of October, A. D. 1917.

H. J. Rodgers,
W. F. Widmayer,
Joshua Vasconcellos,
Jerry Cox,
J. Edgar Martin,
Board of Local Improvements,
Jacksonville, Ill.

A CHANGE OF LOCATION.

Fred DeFrates, the well known barber who has held forth so long on the north side of the square has cast his fortunes with William Miskell and hereafter the two will manage the Star restaurant. The Shad-Id Brothers have not yet announced their intentions for the future. They have made a good name during their residence in the city and their friends will wish them well. Mr. Miskell has been the cook at the restaurant for several years and is well acquainted with the needs of the trade. Both partners are well known in Jacksonville and have a great many friends who will wish them success.

Robert and Harold Luly of Alton arrived in the city yesterday to be here today and during the special sale of the Luly-Davis drug store.

**GIRLS! GIRLS! TRY IT!
STOP DANDRUFF AND
BEAUTIFY YOUR HAIR**

Hair Stops Falling Out and Gets Thick, Wavy, Strong and Beautiful

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Danderine from any druggist or toilet counter for a few cents.—Adv.

SOLDIER RHYMES.

Somewhere in Penna.
October 7, 1917.
Dear Friend:
Many days ago I had
A letter from C— town
So now I think by rights that you
Should hear from the boy in
brown.
'Tis evening and the night is cold
And it is pouring rain
And in our cozy barracks we
Are willing to remain.
Said barracks have been remodeled
Lights and heat put in.
And I think that we are lucky
Not to be in pup-tents thin.
On these cold frosty mornings.
It becomes my pleasant task
To call my fellow soldiers
With a hearty bugle blast.
But when at the proper moment
I sound forth the "mess call,"
I'm forgiven for my meanness.
By said soldiers one and all.
From the present indications
I think that it may be
Several moons before our bunch,

Are sent across the sea.

So we must be contented
With drills and 'eatin' off boards
Until old Uncle Sammy,
Sends us across with Fords.
Well, I must quit this awful rhyming
Before it becomes a bore,
For then I'm afraid I wouldn't
Hear from you anymore.
Sincerely,
Hank.

REV. W. R. LESLIE TALKS
TO HIGH SCHOOL PUPILS
Pupils of the high school heard a
talk Wednesday morning at the as-
sembly hour by Rev. W. R. Leslie,
pastor of Centenary church. The
talk was brief but very helpful, em-
phasizing the opportunity which
awaits the American youth of today.
Dr. Hanley, the evangelist, gave the
boys of the Hi Yi club an exceed-
ingly interesting and inspiring ad-
dress at their regular meeting Wed-
nesday evening.

Mrs. Samuel Gill and Mrs. Luther
Paschall of Virginia were visiting
relatives and friends in the city yester-
day.

A TEXAS WONDER

The Texas Wonder cures kidney
and bladder troubles, dissolves gravel,
cures diabetes, weak and lame
back, rheumatism and irregularities
of the kidneys and bladder in both
man and women. Regulates bladder
trouble in children. If not sold by
your druggist, will be sent by mail
on receipt of \$1.00. One small bot-
tle is two months' treatment and sel-
dom fails to perfect a cure. Send
for sworn testimonials. Dr. E. W.
Hall, 2926 Olive St., St. Louis, Mo.
Sold by druggists.—Adv.

statutes of the State of Illinois, in-
creased its capital stock from \$3,000
to \$150,000.
Norbury Sanatorium Company,
By Albert H. Dollear,
Secretary.

DR. BAYLIS PAINTS VIVID WORD PICTURE OF BELGIUM

Speaker Tells Audience at Central
Christian Church of German Atrocities
— Urges Universal Military
Training—Says Victory Will Come
To Allies Thru Air.

Last evening a good sized, enthu-
siastic and delighted audience heard
a grand address by Dr. Baylis and
could the kaiser have been there he
would surely let up in his shocking
brutalities and call the war at an end.
Dr. Baylis spoke with the confidence
of an eye witness and his words car-
ried conviction and any one who has
doubted the extreme brutalities of
the German army and the base in-
trigues of German statesmen and the
world lust and ambition of the
government would surely be unde-
ceived.

With a few complimentary remarks
Mr. Pontius introduced Dr. Josephine
Milligan, chairman of the
woman's committee of national de-
fense and she in turn introduced the
speaker of the evening, Dr. Milligan
said in brief:

"It is a pleasure to call your at-
tention to three things. The govern-
ment wants all women to register
Nov. 5th; to use all your influence
for the purchase of liberty bonds and
to do your best for food conservation.
Of the goods we have put up one-half
can go to the cantonments if ad-
dressed to an individual and at home
we have five objects: The two hos-
pitals, the old people's home, the op-
en air school and the social service
league so that there will be ample
outlet for all benevolences. It is
very important for all women to reg-
ister that the government may have
knowledge of the forces on which it
may depend. It is a great pleasure to
introduce a gentleman of such wide
reputation as Dr. Baylis."

The address of Dr. Baylis was
peculiar in that he talked of things
he had seen and it would be a great
pleasure to present it entire were it
at all possible. As it is but a brief
outline is possible of the grand effort.

"I have seen much of our land be-
ing going abroad and have seen
much of the actual work of the ar-
mies in the field. I crossed the North
sea on a freighter when I took my
life in my hand to do it and let me
say now that British vessels made
it possible and it is the navy of En-
gland today that keeps the Germans
from our doors and the world owes
a debt to that navy that can never
be repaid. No matter what may have
been the opinions of the pacifists or
others we now have the unquestioned
proof that Germany has been plan-
ning for this war and for the date
of beginning for many years. The
Mad Mullah of Germany, alias the
kaiser, had prepared a map of the
world; Belgium was of course to be
Germanized; then over France the
word Germania was written; it ex-
tended over England and then came
the United States and the G began
at San Francisco, and the last letter
of the word Germania was at New
York. Documentary proof of this is
now in the hands of our government.

"The kaiser thought he would skip
across Belgium unopposed; would
light on France and England and
having them subdued would be mas-
ter of the seas and make short work
of the United States. Man proposes
but God disposes. There is no ques-
tion but that the foul atrocities of the
Turks have been with the full knowl-
edge and consent of the German gov-
ernment and they are too awful even
to relate. Tens of thousands of help-
less women and children and men,
too, have been brutally murdered and
others left to starve. Years ago Ger-
man intrigue managed to get into
Belgium and prepared to make a
terrible massacre. Several hun-
dred men were simply in the way
when the German army went through
a place; they shot them and com-
pelled the wives and daughters to dig
their graves and if any one reached
down to take a memento was shot
or ring from a body she too was shot
and thrown into the grave.

"In lovely northern France a mil-
lion and a half have been left to
starve; in Poland a million, and in
Armenia of 3,000,000 only 5,000 sur-
vived. There is a city where there is
a vale of sorrow. Tens of thousands
of girls have had motherhood forced
on them by brutal German soldiers
and they go there for the terrible
hour. If there is no hell then it be-
hooves the United States and the
civilized world to see that one is cre-
ated into which the kaiser and gov-
ernment may be kept in perpetuity.

"Some people still think there was
no need of this war. Let me tell
you our president did hold out till
the last moment. He knew the detes-
table treachery of Bernstorff; he
knew the base machinations of the
German government, how their plans
were laid to foment insurrection in
Cuba and Mexico and finally when
the kaiser decided we would stand
everything and gave notice that no
ships could sail except with his con-
sent and he fired on our vessels, then
it was time to call a halt. It is a
war of self-preservation and far better
is it to have it over there than on our
shores.

"I have lived long in New York
and have interviewed thousands who
have come to this country from for-
eign shores and when asked why
they came the invariable answer was
to benefit by our free institutions and
now if there is a foreigner or one of
foreign extract in our land sympathiz-
ing with Germany let him at once
leave and go where he belongs. A
good Quaker pacifist once said he be-
lieved in turning the other cheek and
so a young man struck him and sure-
ly enough he turned his face to be
struck again and then remarking he

had fulfilled the scripture injunction
he proceeded to give the young fel-
low a thrashing.

"I met in Toronto a man who had
lost his only son in the war and I
tendered him my sympathy and while
the tears coursed down his cheek he
still was willing to make the great
sacrifice for his country. The war
will mean much to us and cannot be
minimized but we are in for it and
must see it through. Buy liberty
bonds; send Christmas gifts and
cheer to the boys and in every way
do all possible for them. Write your
congressman to stand by the Cham-
berlain bill for universal training.
We are not a militarist people but we
should not be taken wholly unpre-
pared again and it is well too for the
young man to have military training.

"I think the war will be won in
the air and when our machines are
abroad and sail over Germany the
kaiser will think hell has broken
loose. I want a million messages
scattered over Germany informing
the people that we are fighting for
the right and will never give up till
the kaiser is subdued and liberty and
democracy firmly established for-
ever.

Answering some questions he said:
"The situation in Russia is des-
perate yet I feel that she will not
desert the cause of the allies. The
Czar was detected in a plot to sell
out the empire to Germany and was
baffled. There is no doubt regarding
the stories of German atrocities. The
proof is doubly conclusive and the
facts are too shocking to be printed."

**PASSENGER TRAIN
KILLS TWO HORSES**

Manchester Drayman Suffers Loss
of Animals—Other Items.

Manchester, Oct. 17.—Two horses
belonging to James Green escaped
from the lot adjoining the railroad
Monday night and were struck by
a limited passenger train. One
horse was killed and the other so
severely injured it was found
necessary to kill the animal.
Mr. Green has been drayman here
for some time and the loss of his
horses will greatly hinder his work.
Mrs. Joseph Small of Colfax has
returned to her home after a few
days' visit with her daughter, Mrs.
Roy Curtis.

Mrs. Carl Rousey and little daugh-
ter, Martha Irene, of Beardsdown
spent Sunday with Mr. and Mrs.
James Green and family.
Miss Edna Beebe of Wrights was
the guest Sunday of her sister, Mrs.
Carrie Simmons.

Miss Eva Gunn spent Sunday in
Jacksonville at the home of Mr.
and Mrs. Frank Ledford.
Mr. and Mrs. F. C. Lakin and
sons, James and Russell spent Sun-
day in Interberry with Mr. and
Mrs. A. B. Roberts.

Elmer and Archie Mehrhoff made
a business trip to Winchester Tues-
day.

C. D. Chapman shipped a car of
hay to St. Louis Wednesday.

FOR COUNTY COMMISSIONER
Republican Candidate, Fred J.
Scholfield, election Nov. 6.

A PECULIAR OUTFIT
A strange looking outfit appeared
on the streets yesterday attracting
considerable attention. It was a
Ford runabout body, engine and
front wheels while the rear wheels
were removed and instead a four
wheeled truck was attached and to
the front wheels of that was the pow-
er attached. On the truck which was
about twelve feet long was a high
canvas covered load with "Marinette
Mining Co. of Nevada" printed on it.

Thos. Tislington and wife of
Murrayville were in the city shop-
ping yesterday.

SELF RIGHTEOUSNESS JACKSONVILLE'S SIN

Evangelist Preaches Strong Discourse
on Repentance—Song Service is a
Feature of the Evening—Rev. R.
B. Wilson Had Important Part in
Service.

**Hanley and Fisher Revival
Meetings for Today.**
8:40 a. m. David Prince
school.
Noon McCarty-Gebert Cigar
Factory.
2:30 p. m. Grace church.
Meeting for women. Address
by Dr. Hanley on "The Power
of Motherhood."
4 p. m. Rehearsal of chil-
dren at Grace church for Boost-
er chorus.
6 p. m. Business Men's Lun-
cheon, Odd Fellows' Hall, East
State. Address by Dr. Hanley
on "The Soul of Business."
7:30 p. m. Evening service
at Grace church. Sermon by
the Evangelist on "The Disap-
pointed Christ."

The union meeting last evening
was like the still small voice after
the earthquake, wind and fire. While
the attendance was reduced on ac-
count of another important address
in the city, the real power of the
meeting was more intense and pen-
etrating. The evangelist got down to
"brass tacks," and breathless still-
ness prevailed as he delivered his
burning message.

Rev. R. B. Wilson, who was ab-
sent from the meeting Tuesday on
account of a wedding in his old parish
at Hillsboro, was given an im-
portant part in the opening service
last night. He offered the prayer
and then made a capital "collection"
speech. He said if we are to win
in this campaign we must do three
things—Work, Pray and Pay. He
laid heavy stress on the third word.
Fred Fisher was full of radiant
humor and spiritual inspiration. As
he led in the great hymn "I'm sing-
ing all the way with Jesus," he made
it an expression of full consecration.
One of his favorite devices is to
weave one old, familiar chorus into
another without announcing the
numbers. Supported by his great
choir, the excellent orchestra and
the two crack pianists Fred seems
as happy as a King as he directs
the musical life of the campaign.

Mr. Hanley spoke of what a
stagnant day his party had had yester-
day. He began the day with a
service in the Woman's College.
"You folks ought to be congratulated
on the Illinois Woman's College
and what they are doing for this
town." Then he paid a tribute to
the great, widely known president of
the institution, Dr. Harker. At noon
the party visited the Bridge works,
where Mr. Hanley gave a talk which
appealed strongly to the men. Next
came a meeting at the Y. M. C. A.
and finally came the evening ser-
vice.

Miss Mary A. Robertson held three
meetings yesterday and wielded
some telling influence for the cam-
paign.
Sermon of Great Power.
After an interesting service of
scripture testimony and a fine solo
by Mr. Fisher the evening sermon
was delivered with great power and
feeling.

The theme was "Repentance" and
the text Mark 6:12 "They went out
and preached that men should re-
pent."
"In my opinion," said Dr. Hanley,
"the unusual need tonight is repent-
ance. All of our effort amounts to
nothing if men will not repent." He
pointed out that the greatest sin of
Jacksonville is self-righteousness. We
are asleep at our post. "If God de-
pended upon some of us for winning
souls He'd never save anybody."

While we are not guilty of the
sins of stealing, drunkenness, mur-
der, etc., we are guilty of lying,
envy, gossip, back biting, self suffi-
ciency. The church and the world
are too much alike. We must abhor
our sin and repent before God can
bless us. Popular preaching is not
what we need these days. Some-
thing is wrong if nobody is getting
hurt."

Then he took up the much discuss-
ed amusement question. "I believe
in enjoyment. But amusement is
one of the most insidious things in
the world. I do not do any of those
things which I can't conscientiously
do. I will not go anywhere or do
anything that I would be ashamed
for Christ to find me doing." The
world is critical of us. We need
to watch out lest our influence be
on the wrong side. "Did you ever
see a person who indulged in the
questionable amusements who was a
soul winner?"

Must Plunge in Head First.
We need a thoro going religious
life. Some folks have just enough
religion to make them miserable.
Plunge in head first—don't stand
around shivering on the shore.
"Launch out into the deep."
The church may be a place to fall
asleep in. Then it becomes a half-
way house to Hell, as well as a half-
way house to Heaven. But the devil
gets scared when he sees church
members doing three things—Pray-
ing, reading the Bible and working
for the salvation of others.

Have you been an indolent Chris-
tian? Have you been asleep? Re-
pent. Get rid of sin. This must
come first before we can have a re-
vival. No matter how long you
have been in the church, don't try
to cover up your sin. Repent and
get right before God. Then he told
about an elderly Sunday school su-
perintendent who had come forward
in one of his meetings and after-
wards confessed, "I've been a church
member 52 years, but I've had a
sin in my life." He repented and
became a new man.

With a vivid illustration compar-
ing sin to a tiger cub which changed
from a pet to a fatal enemy he closed
his searching message. After
prayer he asked all to leave the
church silently without any words of
social greeting. Everybody felt that
a revival is about to break out and
sweep over our city.

Dr. Hanley is making good in tre-
mendous fashion. He is winning his
way into the hearts of the people
of this city in all walks of life. The
community is to be congratulated
upon having such a prophet laboring
here. What he pleads for is loyal
co-operation on the part of all who
are interested in the moral and spiri-
tual life of Jacksonville.

MAN WHO MADE HILLVIEW DISTRICT FAMOUS

STORY RELATED IN REGARD TO LOWENSTEIN LAND DEAL.

Former Real Estate Dealer's Story Throws New Light on Temper of Man Whose Efforts Have Built up Hillview District.

In conversation with a local ex-real estate dealer, a new story is told in regard to Mr. Lowenstein and his holdings in the Hillview district.

"Mr. Lowenstein has always been a man who was not afraid to back his opinion with his acts and with his money. When he first began to agitate the levee in the Hillview district he met with all kinds of opposition so he made arrangements for the money and put a levee around his own land first. Of course it was not so pretentious as the one along the river but it had a pump and it made good. That year was one of the worst for high water for many years and two or three days and nights, Mr. Lowenstein and his men worked without rest but they held the river. The result was that more grain was raised on the land inside of his levee than on all of the rest of the bottom put together. That gave the levee project all of the impetus it needed and it went forward by leaps and bounds. But no one knows of the work and effort he has expended except those who have been active with him and who have seen the result.

"I said that he was willing to back his ideas with his money. A few years ago he sold, thru me, eight hundred seventy five acres of this land to a man named Johnson at Batavia, Ill. Mr. Johnson was hold-

ing back on the deal and was afraid to go ahead when Mr. Lowenstein told him that he would rent the land for a period of ten years and pay Johnson ten dollars an acre for the entire time. Johnson took him up and paid down a certain sum as earnest money to bind the deal. Mr. Lowenstein had just paid out an immense sum to have his title perfected but Johnson objected to it. Then came the cold nerve of the man. Even tho he was cleaning up thousands of dollars in the deal, he handed Mr. Johnson his earnest money and took back his contract without a word.

"Every year since that time this same land has returned him many dollars more than he had agreed to pay. He held the unlimited confidence of every one with whom he came in contact and this little item is simply related to show the temper of the man who made the reclaimed lands of Hillview famous."

A LONG JOURNEY.
Russell Banks, of Arkadelphia, Arkansas, is visiting his uncle, J. A. Litter of Litterberry and was in the city yesterday. The young gentleman is a telegraph operator and is out for five thousand miles trip before going to war and expects to encircle the country, going to Oregon, south to California and back by Utah and many other points in the land.

HAYES EXONERATED BY CORONER'S JURY

Jury Heard Evidence Wednesday Afternoon and Exonerated Hayes from all Blame—Testimony of Various Witnesses Showed Stevens Man of Bad Reputation—States Attorney Robinson Will Have Hayes Arrested Today and Endeavor to Hold Him to the Grand Jury on Charge of Murder.

Elza Hayes who shot and killed William Stevens at the home of Lewis West on the North Main street road Tuesday evening was exonerated by the coroner's jury Wednesday afternoon. The jury convened in the circuit court room and the examination of witnesses was completed shortly after 5 o'clock. The jury retired to the judge's room and in a few moments agreed upon a verdict. The jury was composed of J. W. Taylor, foreman; William Kastrup, G. A. Muehlhausen, J. F. Self and T. J. Stout, clerk. State's Attorney Robinson was present and conducted the examination and the testimony was transcribed by his stenographer. Attorney W. L. Armstrong had been retained by Hayes and was present and conducted the examination of witnesses for his client.

State's Attorney Robinson said last night that he expected to have Hayes arrested today on the charge of murder and would endeavor to have him bound over to await the action of the grand jury. Mr. Robinson said that there was nothing in the evidence given before the coroner's jury to indicate that Stevens had made threats against Hayes or that Hayes was in any danger from him.

The coroner's jury heard the testimony of J. A. Hayes, brother of Elza Hayes, Lewis West, his brother-in-law, Virgil Page, another brother-in-law, Mrs. Lizzie Abbott, his mother and Lucy Abbott, his half-sister.

The defendant was also put on the stand. His testimony was the same as that given in the Journal of Tuesday morning except that he went more into detail of the causes that led up to the shooting. The testimony of the above named witnesses was largely corroborative of the story as told by Elza Hayes.

The testimony of Mrs. Abbott and her daughter brought out the fact that Stevens bore a bad reputation in Kentucky. They testified that Stevens had at one time chased Mrs. Abbott and her husband out of their house and had also burned some of their property. Lucy Abbott testified that Stevens had threatened to kill her if she did not marry him and had offered to get a divorce from his wife in order to marry her.

Testimony also was given by Benjamin McGowan who took Stevens to West's home about 4 o'clock Tuesday afternoon. McGowan knew Stevens in Kentucky and said he was a bad man when drinking. He could not throw any light on the shooting. Thomas Barber who resides in the vicinity of the West home testified to Hayes' brother coming to his home after the shooting and asking him to call the undertaker, telling him his brother had killed a man. Barber told of going to West's house and finding a dead man lying in the ditch. He did not know what had caused the trouble, having only heard the shots. Herbert Twyford who runs a grocery store on North Main street testified to Stevens coming to his store and wanting him to take him to West's house. Twyford also came here from Kentucky but did not know Stevens there.

The following is the text of the jury's verdict: "We, the undersigned jurors, sworn to inquire into the death of William Stevens, on oath do find that he came to his death by gunshot wounds held in the hands of Elza Hayes, and we further exonerate the said Elza Hayes from all blame."

No disposition has yet been made of Stevens' body. It was learned by Coroner Rose that Stevens has a brother in Kentucky and he is trying to locate him. Nothing will be done until word is received from him.

ELEGANT LINE OF KENYON'S JERSEY DRESSES NOW ON SALE AT HERMAN'S.

THE HAXTON CASE.

Attorneys John M. Butler and H. P. Samuel are greatly pleased with the decision of the Appellate court in the Haxton case. Mr. Butler in particular, has on several occasions contended that an indictment without a list of the witnesses and endorsed by the foreman of the grand jury was not in proper form.

On such occasions and in the Haxton case a motion was made to quash the indictment and the motion was overruled by the court. The higher court in reviewing the case only considered this question, altho several others were set out in the brief. After a thorough statement of the facts the court not only remanded the case but gave instruction for the quashing of the indictment.

Attorney Butler said yesterday in commenting on the case that the question had been a much mooted one on numerous occasions and that nearly every attorney at the Morgan county bar had run afoul of it at some time. He thought that the decision would prevent a great deal of argument and discussion in the future.

EXTRA SPECIAL.

We find we have about 2 dozen pairs of 12 and 16 button length kid gloves—colors white, tan, navy blue and black. They are worth \$3.00 to \$4.00 per pair. We offer them for quick selling at \$1.98. Do you want them? They will never be so cheap again.

CIRCLE WILL MEET FRIDAY

The South Side Circle will meet with Mrs. Weir Elliott tomorrow afternoon at the home of her son James Elliott on West College Ave.

ARMED FORCES ABROAD CHARGED NO POSTAGE

Uncle Sam Will Carry All Letters and Cards to This Country Free of Charge.

A fact that possibly is not generally known is that all mail sent to this country from our armed forces abroad comes free of any postage. Postal regulations state that mail from soldiers, sailors, or marines in active foreign duty shall be free of any postage charge. In a short time, when hundreds of thousands of our boys will be in active foreign service this will make a tremendous drop in postal receipts, but the order is just and all that the government can do in matters of this kind, all the favors and comforts that can be afforded will be little short of government duty to perform.

The raise in postage rates on first class matter in this country, which takes effect on the second day of November, will in a great measure recompense the government for what little will be lost by allowing our foreign forces free postage for their letters. In another sense, it is proper that the stay-at-homes should shoulder the wheel financially for the men abroad and should give liberally of their means for the soldiers' comfort.

After the second of next month, all sealed letters will take a three cent stamp and all post cards will be required to carry a two cent stamp. Banks, large mercantile establishments and all people carrying on large business enterprises by mail will be hard hit by the new postal law, but the average American, in daily life the common people, will not miss the few cents difference which the new law will make to him.

Three cents will be charged for each additional fraction of an ounce on letter mail. For instance if a letter weighs an ounce and a half six cents postage will be required to carry it to its destination. If it weighs two ounces and a half nine cents in stamps will be required.

HORACE SIMPSON BUYS 19TH BUICK

Horace Simpson of this city made a wise selection of a Buick 5, when he bought of Howard Zahn the 19th Buick, with which he will enjoy many pleasant rides about the country.

MAYOR RODGERS IN CHARGE OF DISTRICT

Mayor H. J. Rodgers, President Rammelkamp of Illinois College and J. S. Findley of the local Y. M. C. A. attended a meeting Tuesday in Chicago in connection with the securing of the proposed war budget of the Y. M. C. A. for next year. At this meeting Mayor Rodgers was named president of the district, which includes Morgan, Scott, Pike and Cass counties, and Mr. Findley was appointed his lieutenant. The sum of \$35,000 has been allotted to this district, Illinois' apportionment being \$3,000,000. A total of \$35,000,000 will be required for the work planned among the men in the U. S. cantonments and those in European countries.

Among the speakers at the meeting Tuesday was George Sherwood Eddy, who has but recently returned from the front and who was thus able to give first hand information of life in the countries now at war. His story made clear the need there is for developing and safeguarding the manhood of the warring nations, and the speaker declared that the victory would be won by the nation which saw and met this need.

The fact that the international Y. M. C. A. has been asked to contribute double the camp comforts and entertainment at first anticipated necessitates the bending of every energy toward this end. The success of the work thus far has been a source of much gratification to those actively identified with the campaign, and it is the expectation that the whole sum will be forthcoming.

The non-wrinkle four-in-hand. Latest shown by FRANK BYRNS' Hat Store.

OVERLAND TRAVELERS

Yesterday afternoon there arrived in the city a gentleman with a peculiar name, Bruce Pancake. At first the reporter thought the gentleman might be in jest but he found he remembered that in Champaign a good many years ago he met a man of the same name. This gentleman was traveling with his wife and daughter in a Studebaker car and had been in Michigan, Wisconsin, Indiana and various parts of the east and is now working his way to California. The family camps along the way and are in search mainly of health and recreation and seem to have found both. Mr. Pancake said when they left home early in June the daughter weighed 110 pounds and now she tips the scales at right near 160. Mr. Pancake had along a complete outfit, a well stocked cupboard and tool box, comfortable tent and camp beds and withal was very courteous and kindly answered all questions asked.
